## So....What the HECK is **MAILBOX MONEY?**

**Mailbox Money** is simply creating **supplemental income**. It's the idea of getting money in your mailbox with little or no work. In the "old days", this meant getting checks in the mail, but today, it basically means **passive income** that hits your account without much effort. ... The idea of mailbox money is passive income.

**MOST IMPORTANTLY**, creating mailbox money using products and services, always has the opportunity or probability to create hundreds or even thousands of dollars per hour ... So in other words, if you are an employee for a company, is there any way that you could make \$500 per hour, or \$1000 per hour, or \$5000 per hour? The answer is no way!

As my favorite mentor says, **mailbox money means** that we work work work work work and get paid ... then in a few months we work work work work and get paid .... then in a couple more months we work work work get paid get paid get paid ... then in a year or so, or may be 5 years, depending on the skill and dedication of the individual, we might work then get paid get paid get paid and get paid ... Does that make sense? Work turns to mailbox money, because of the Mailbox Money Business & Compensation Model.

**More About Mailbox Money Later On.**

FOR MOST EMPLOYEES, they are hoping to get a raise, but there are never any guarantees. Even if you work harder, there are no guarantees from your employer, that you will get a raise or make more money. You could be the best worker they ever had and yet you may make way less money than your manager. If you are like us, you may feel like your boss is not even qualified for their job or they maybe don't even deserve it. Maybe you have been with the same company for many years and there is no room to advance, so no matter how hard you work, your own life isn't improving. Even if you are valuable or priceless to your employer and the company is thriving, you still aren't getting what you DESERVE. And, like us back in the day, you probably are NOT getting ahead in life.

If you are like I was, and a salaried employee, I actually made less because I care. They paid me for 40 hours, but with travel, and events, and evenings and weekends, it all added up to WAY MORE THAN 40 hours per week for me! Then, after the 360 peer review, they offer just enough to cover inflation. Ha ha right? Well it is not really that funny. We are talking about livelihood. And livelihood is NO LAUGHING MATTER.

Unfortunately for the majority of humanity, people will not be able to enjoy their lives to the fullest or enjoy retirement. Finding a path to supplemental income or a path to better income for your time invested, should be your focus. One thing is for certain, this is the path for hundreds of thousands of people world-wide. Why? Because it is a super smart decision to take action, rather than taking no action.

Finding fun things to do, based on your passion and interests, is never a problem. The problem is finding a way to afford the things you WANT and DESERVE.

**Team Global**

We want you to get excited. STRUGGLING TO SURVIVE OR JUST GETTING BY on a week to week basis, absolutely SUCKS!

We want you to **DREAM again!** YOU CAN DO IT! YOU GOT THIS!

## Always Dream Big!

Growing up, one of the things I heard more than anything from my mom was the statement, **“WE CAN’T AFFORD THAT RIGHT NOW.”** The statement still sends chills down my spine and really bothers me. Other kids appeared to have so much in comparison. I can imagine the day where I don’t have to ever say that statement to my kids or family. Together we can stamp it out to be gone from our vocabulary for generations to come.

FRANKLY, I want to give you **permission to dream again.** It is totally OK to dream. I lost my way for many years, but then I WOKE UP.

And when I finally WOKE UP, I was not alone. I was surrounded by people that **cared enough about me**, to reach out to me. They didn’t just tell me, they **showed me.**

What if you could trade your time, over a period of time, to create a **lifetime of residual income.** We call it “Mailbox Money” because we believe it is possible.

It is happening. Everyday, we are one step closer to achieving our financial dreams.

**Team Global**

[success@thegoalsofife.com](mailto:success@thegoalsofife.com) • [calendly.com/troydandurand](https://calendly.com/troydandurand)

What if you could find a path that is **RISK FREE**, and it also offers **high earning potential**? What if it is **highly effective**, is **efficient**, and is **highly rewarding**? What if it offers **real money**, and **real recognition** for your achievements? What if you get to **help others** in several ways by taking action? Wouldn't you at least **try it**? **I would, I did, and I am so glad I did.**

After all my years in multiple Industries, salary jobs, commission jobs and everything in-between, I finally found something that is simple, and a PATH that is more rewarding, and more fulfilling. Do it your way! There are no policies, or rules or bureaucracy to hold you captive or prevent you from achieving your dreams. Our mailbox money plan can pay what you earn, based on how hard you want to work. If you do the work, you will get paid and this can lead to a lifetime of residual income. People that find a few hours per week and work Part time are successful. Some people work the plan full-time, and are very successful. And whether you are 18 or 100 years old, success is possible, and you can work at your own pace, from the comfort of your home, and on your schedule. You CAN become a Network Marketing Professional. I have had some very high paying jobs and have made companies millions of dollars, but I still haven't found anything more exciting and rewarding than this!

**Join us. Learn our ways. Everything we do, our best practices, are fully transferable skills that you can add to any resume.**

IF PEOPLE knew, what I know, they would work their tails off to supplement their income using Network Marketing & Direct Sales methods, while trying desperately to completely replace & surpass their job/employee based income.

Let me ask you a serious question. Think of some things that you built. A car? A house? Education? Success in a sport? The point is, we all are builders in something. So is it not true to say with some certainty, mixed with some imprecision, that when we set our minds to something, we build something; right? The law of averages are with you.

Plus we have mentors that have over 4 decades of specialty leading teams and building teams, and edifying individuals, and making things grow. You can make things grow too, because everything we do is duplicatable and replicatable. And if we do it over and over and over, the question is NOT WILL IT WORK; the proof is in the pudding, because it works. The real question is are you coachable and teachable, to do specifically what the mentors tell us to do, and do it with precision and reliability and with commitment and persistence and perseverance? IF YES, then guess what, you will create a legacy of mailbox money; that grows and grows and grows; that can be passed onto future generations to come.

## A Bit More About **MAILBOX MONEY**

- In Business, a company must retain its internal focus, while also focusing on the external focus.
- As you know, collecting, finding, making accurate and reliable data, and harvesting external data and an information focus is key for business decision makers; regarding competitive position, advancing the competitive position, market trends, industry trends, role within the industry trends and Leadership, are all very important to a Successful Business.
- The same goes for an individual. You should operate as a business.
- Again, I suggest that we as individuals, also pay close attention to the same data and information, trends, etc...
- Covid19 is devastating, however, there are certain actions and businesses that can help create supplemental income.
- Choosing a successful Ideology, Mission, and Competitive Position, Leadership, Industry and Methods is very challenging.
- For the most part, it takes time and trial and error.
- However, our business, or “vehicle” is as good as they come, and since our up line has nearly 4 decades of expertise, our Recipe is unique.
- Our leaders are not telling us how to earn mailbox money, they are living it, and demonstrating how and why it is done.
- The beautiful thing about mailbox money is it will grow, with an honest day of hard work, things will get better, and improve.
- Our focus is to do the right things, by leveraging successful income earners, individuals can begin to create and generate mailbox money.
- And unlike the Corporate World, or a job, mailbox money can literally create a legacy for decades, and even after you pass on, mailbox money continues to pay out for generations to come.

"I am so privileged. I am over 50 now, so I have been waiting *my whole life* for something that could help me retire. *The leadership is the best* I have ever seen or been a part of. Amazing people. The *training and mentorship is fantastic*. The Leaders work their business, they mentor us, they encourage us and they give us *the best leadership* I have ever seen in my life. When I compare a different company, I joined in March, I made enough *salary to cover three years income* that I made, and I made in one month. And in 6 months, I *made over 7 years of income*. Determination and my goals helped, but Dale Franklin is a great mentor and held my hand the entire time. I have 104 people in my organization now. We need a bigger office! *Our future is bright*. I am so grateful and thankful for our leadership. Thank you.

## 3 Key Lessons that all Millionaire's Understand.

### 1. Breaking the 24-hour barrier.

One of the richest men of all times, was J. Paul Getty. He said, "I'd rather have 1% of 100 men's efforts, than 100% of my own effort. Does that make sense?"

Our Millionaire Mentor, with over 4 decades of expertise as one of the greatest Network Marketers of all time, teaches us that an individual is always limited by a day or 24 hours. Every person has to sleep, thus making it difficult to work 24 hours a day; day in and day out. So, one person is always limited physically in a 24-hour period. Even if an individual works hard for 24 hours a day, for an entire week or two, or for an entire a month, at the end of the day, day in and day out, eventually their focus and capabilities were thin. Would you agree?

### 2. Team Building: The critical importance of team building.

We have all said it and or heard it said, that we cannot do it alone. We have also heard that it takes a village to raise a child up, in the way that he should go. The point is that we all need other people like spouses, friends, people, teachers, coaches, kids, mentors and bosses to be a part of our life to help us become successful and winners. In most cases, one key person can change a life with a few choice words, or one swift action. Ironically, a team can also help a person to break the 24-hour barrier.

**continued ...**

**Team Global**

[success@thegoalsoflife.com](mailto:success@thegoalsoflife.com) • [calendly.com/troydandurand](https://calendly.com/troydandurand)

### **3. Success through Association.**

One of the greatest tidbits of insight that I am most grateful for hearing came from a couple of very successful people named Dexter Yager and Lennon Ledbetter. They said, “Success through Association comes from Books, Tapes, Seminars and Meetings. Make sense? The truth is that Millionaires hang out with other individuals that have the same mind set or perhaps a better mind set, and similar net worths. Success through association is one of the most powerful principles that cannot be denied. Personal and Professional Development through association and affiliation, eventually starts to rub off on you and those around you.

#### **WE ALL DO IT! All of us.**

Everyone has made a referral. A pharmacy, a retailer, a restaurant, movie, or validated someone's skills in LinkedIn. The truth is, we never get paid for it; at least not paid directly in cash right? Think about it, how many times have you made a word of mouth referral? If you could make \$10,000 dollars in a life time, from one referral, is that a ton of money or what? Well, this is what we are talking about. While Procter & Gamble, or Johnson & Johnson sell their products using TV, Radio, Newsprint and Magazines, to market their products and services, billions are spent using retails and major ads. We feel we have a better path. Imagine a company, or an enterprise that pays out 85% based on business volume. The reality is that the \$10,000 dollar example above, is very conservative to what is possible and what is probable if a person like you works smart.

This can work for you!

"I turned 53 this year, finding myself *working 50 hours a week* at my day gig and another 8-12 hours a week at my firearm training classes, making extra money to make ends meet. Nobody could have predicted the impact Covid-19 would have on our economy down to individual families. It didn't take long, like most, living on the current income without room for any more time to take on more classes *I was maxed out on income*, again. I receive a phone call from a friend from my past, asking me if I ever look at other ways to make money. Knowing how successful he already was in life, I said yes I do. Over the next couple of weeks, he showed me a way to create an *income stream* to replace my training classes. The important thing I realized here was I was able to *free up those 8-12 hours* doing time consuming training classes without losing the income. This rang a bell for me, opening my eyes to the possibility of building this even a little bigger *enhancing my income* to pay down debt, increase monthly cash flow, taking pressure off of my family."

### **Christina Karmiris**

Learning and Development Trainer

Troy is amazing at creating partnership and building rapport. He is one of the best sales people I have ever worked with. He is always forward thinking and organized.

### **Phillip Keller**

Chief Financial Officer & Secretary at First Choice Healthcare Solutions Inc (FCHS)

I have worked with Troy on multiple projects over the last three years and his systematic, results oriented approach to solving problems has consistently delivered improved performance, increased revenues and profitability for his clients.

### **Christopher Anacker**

Bus Dev, Bus Research, B2B Marketing

Hard-working, creative, resourceful, adaptable, energized ... these immediately come to mind in describing what I've experienced of Troy. "Tactical" is appropriate, too, given the company resource challenges I know he's faced. Under the right circumstances, with appropriate managerial and system support.

### **Steve Gnoza**

CEO and Owner at MedAm and M.A. Apparel and Promotions

Providing PPE and Promotional Products for Corporate Energy, Outdoor & Healthcare

If you are considering working with Troy, consider that he'll either have the knowledge to assist you in your endeavor or he will find the solutions you need to accomplish your mission. He's hard working, intelligent and full of ideas; making him a great assist to your company.

### **Chris McDowell**

Lead IT Systems Analyst at Lumen

I have had the pleasure of working with Troy on and off since 1997. On two different occasions, Troy was my primary vendor contact. Any time I had questions, needed clarification, or assistance with an issue, he was there for me and my company. Troy is one of those people who quickly establishes a solid rapport with his customers and always goes the extra mile. He is very detail oriented, methodical, and always strives to be the subject matter expert in his chosen field. I hope to work with Troy again in the future....
