# PRODUCT MANAGEMENT - FARMCHEM.COM

## Image Prep & Specs

### IMAGE SIZE:

(done with Photoshop via web manager or designer)

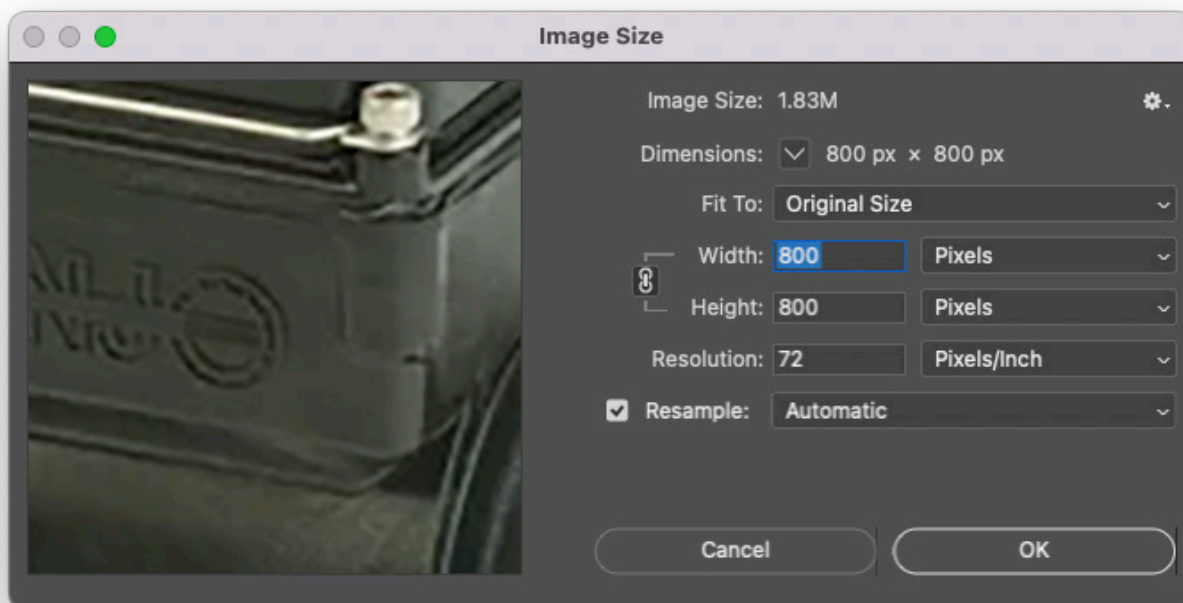

Dimensions: **800px x 800px** (always square for products)

DPI: **72dpi**

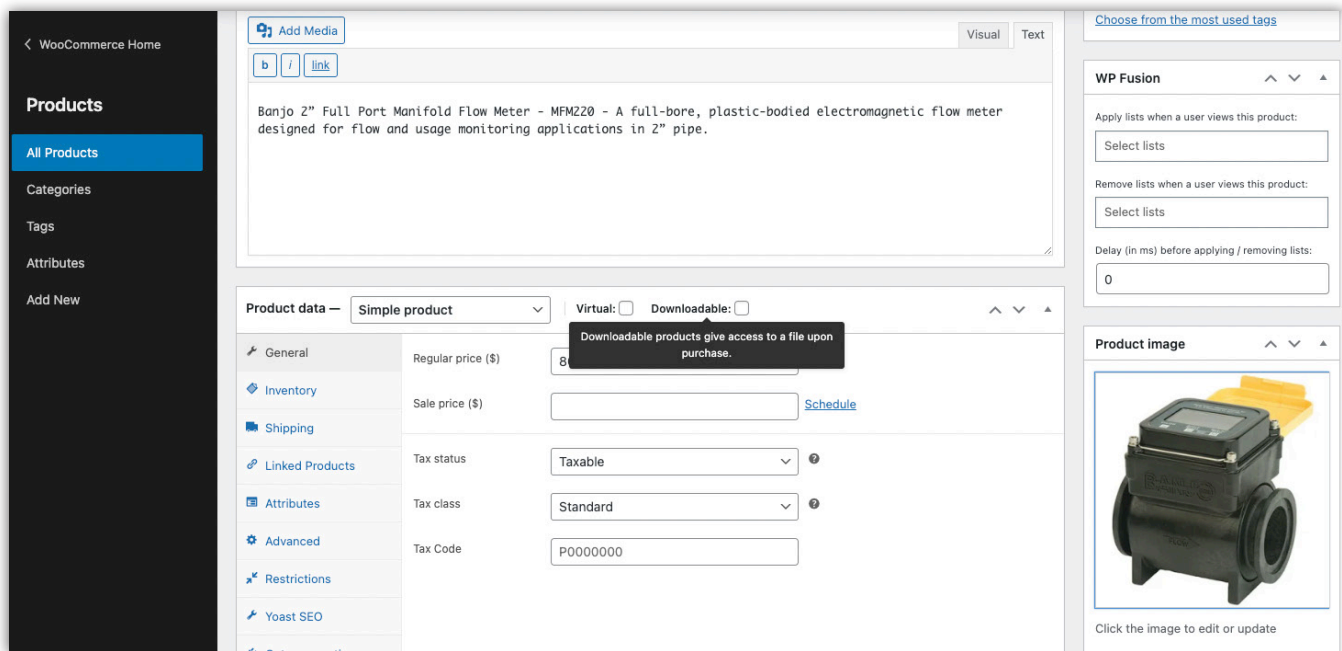

Type: **.webp**

File Name: **product-title-productsku.webp**

Example (no symbols, underscores, or spaces): **Banjo-2-Full-Port-Manifold-Flow-Meter-MFM220.webp**

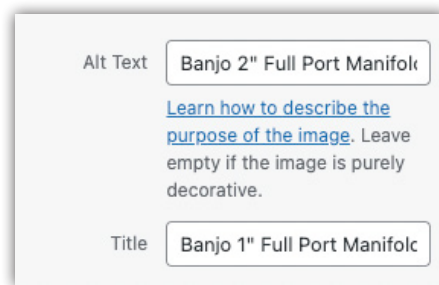

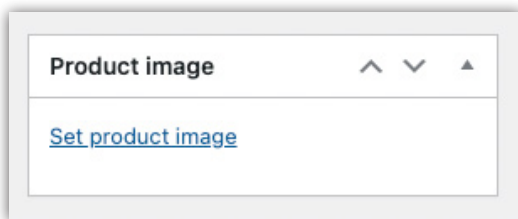

# Adding the Product Image to FarmChem.com

## ADD THE IMAGE FROM THE PRODUCT PAGE:

(do NOT use media upload tools or upload directly when possible, it does not attach the image to the product)

Set product image — drag new image onto the screen

Alt Text (product name / title - sku): **Banjo 2" Full Port Manifold Flow Meter - MFM220**

Title (can be same as alt text): **Banjo 2" Full Port Manifold Flow Meter - MFM220**

Caption (left blank):

Description (left blank):

Compression Level: **Medium**

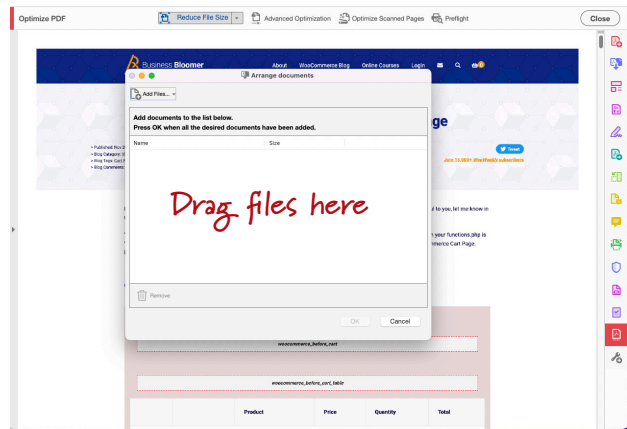

# PDF Prep for Website

## REDUCE FILE SIZE:

(done with Acrobat after creating or receiving the PDF)

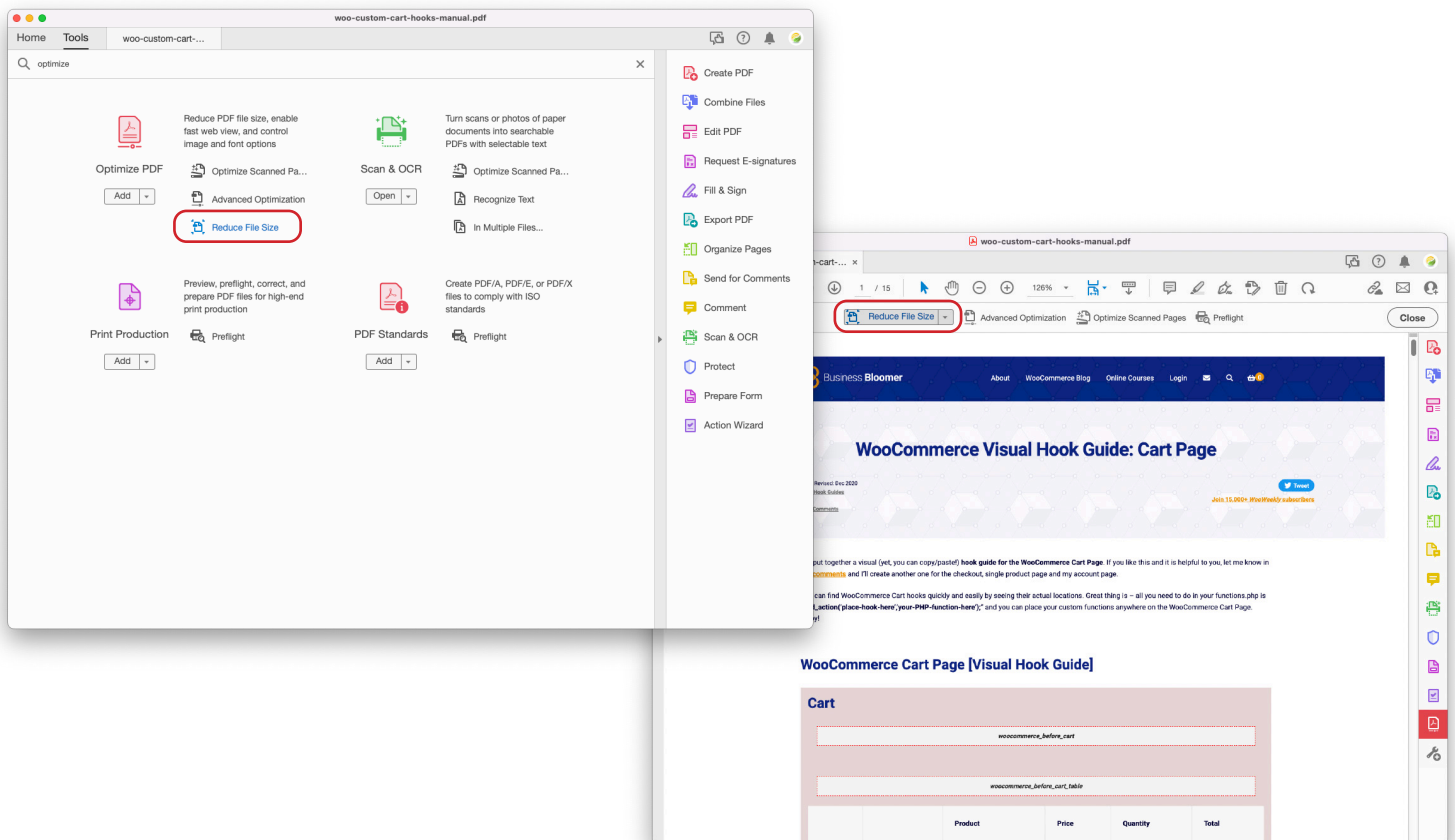

1. Open PDF in Acrobat — navigate to “More Tools”
2. Search — “Optimize”
3. Next to Optimize PDF — click “Reduce File Size”

## BULK

- Reduce the Size of Multiple files — click the “Reduce File Size” drop-down at the top, you can choose multiple PDF’s to process in bulk
- Choose “Reduce Multiple Files” — drag all the PDF’s that you want to convert into the window
- Click “OK” — Make compatible with, choose “Retain existing”
- Click “OK” — Adjust settings as desired and click “OK” to process all the PDF’s

4. Reduce File Size of The Open PDF — click the “Reduce File Size” button at the top, choose where you want to save it and rename it if needed
5. Example (no symbols, underscores, or spaces): product-title-productsku.pdf (PDF files that will be uploaded to the web should be named clearly so viewers know exactly what is within the pdf)

# Product Settings

**Product Name / Title**

**Banjo 2" Full Port Manifold Flow Meter - MFM220**

Permalink: <https://farmchem.com/product/mfm220-banjo-2-f-ifold-flow-meter/> [Edit](#)

**Description**

The 2" Flow Meter Series are a full-bore, plastic-bodied electromagnetic flow meter designed for flow and usage monitoring applications in 2" pipe. The polypropylene flow tube offers corrosion resistance to a wide range of chemicals. Its light weight and clamp flanges allow it to be easily installed or removed from the pipe for inspection. There are multiple configurations. With no moving parts, the magmeter permits unobstructed flow, minimizing flow disturbances. The 2" Meter Series can be used in piping configurations where there is little space between the meter and valve. The 2" Meter Series, like other magmeters, are resistant to wear from debris. Since there are no bearings or propeller to wear out, downtime and maintenance are kept to a minimum. Because there are no mechanical parts in the flow stream, the meter tolerates high flows without damage. Please note that flow does not automatically turn the meter on. The hinged, polyethylene cover protects from dust and UV rays, while permitting easy access to the LCD flow rate and total display. The electronics housing is made of rugged powder-coated die-cast aluminum. Flow rate and total can be displayed in a variety of units, customerselected and factory-set. The 2" Meter Series are used for tracking flow rates and total flow in usage monitoring applications. These would include wells, industrial wastewater, leach mining discharge, cooling tower deduct metering, turf and landscape applications, and other water reclamation operations. When changing the batteries, the 2" is designed to retain the internal settings and flow total.

The standard flow meters are a battery-operated unit for use when pulse output is not required. The batteries are user replaceable with an approximate 1-year life under continuous use, or more depending on the duty cycle. The flow meters shut off after 15 minutes of inactivity to preserve battery life.

**Product Name / Title** (item-name-sku): **Banjo 2" Full Port Manifold Flow Meter - MFM220**

Start with the Brand Name (if not generic), then the full name of the product (including size and version if applicable), followed by the product SKU.

**Slug** (item-name-sku): **banjo-2-full-port-manifold-flow-meter-mfm220**

The slug should be similar to the title, but lowercase, without any quote marks, special characters, underscores, periods, or spaces.

**Description** (specs, details and anything beyond the basic name and sku of the product that the customer should know): The 2" Flow Meter Series are a full-bore, plastic-bodied electromagnetic flow meter designed for flow...

**APPLICATIONS**

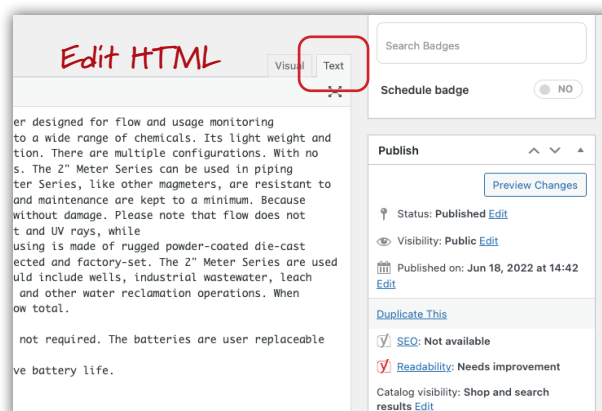

Usage monitoring, such as:

- Industrial wastewater discharge monitoring
- Cooling...

The descriptions should contain all the main features and details about the product that a buyer should know. It should be .in paragraph form and contain the product name / key phrase at least once. Ideally this should be 250 -1000 words. (This can include html tags / coding using the "Text" tab view)

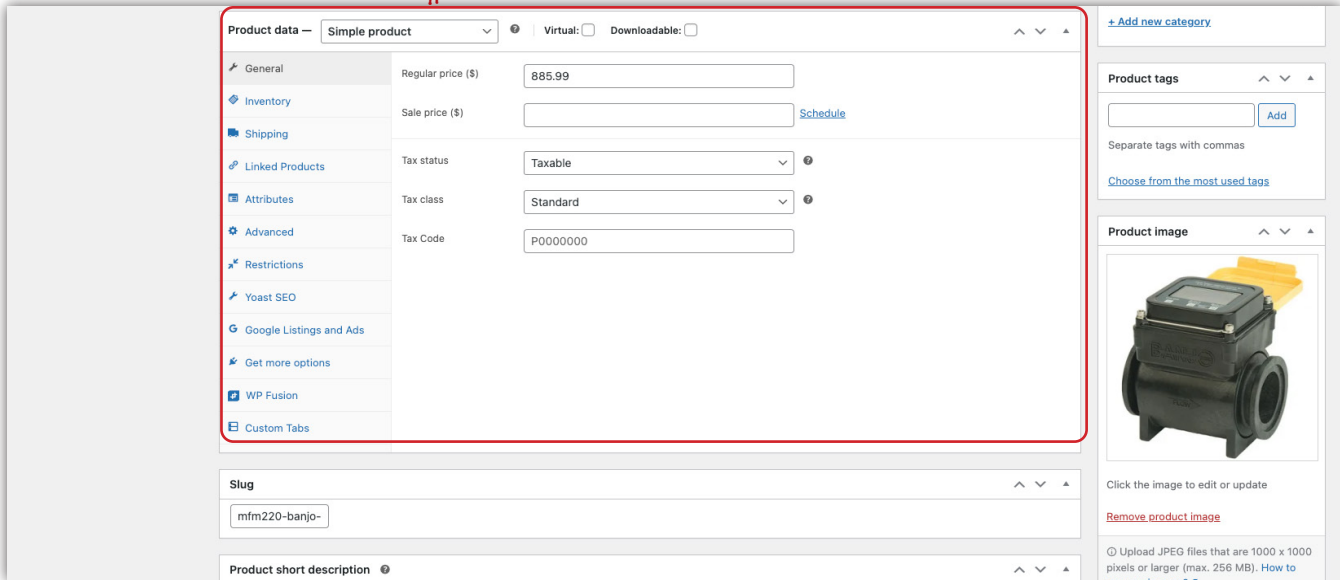

**Product short description** (about this length): Banjo 2" Full Port Manifold Flow Meter...

The short descriptions should be a summary of the product and it's use(s). It should be .in paragraph form and contain the product name / key phrase at least once. Ideally this should be 250 -1000 words. This is a great place to include a link to a PDF sell sheet or product data sheet (This can include html tags / coding using the "Text" tab view).

# Product Settings

## Product type

**Product data** — The section of tabs in the admin area that holds the main setting for each product.

**Product type** (drop-down) — Current types in use;

**Simple product:** all general products

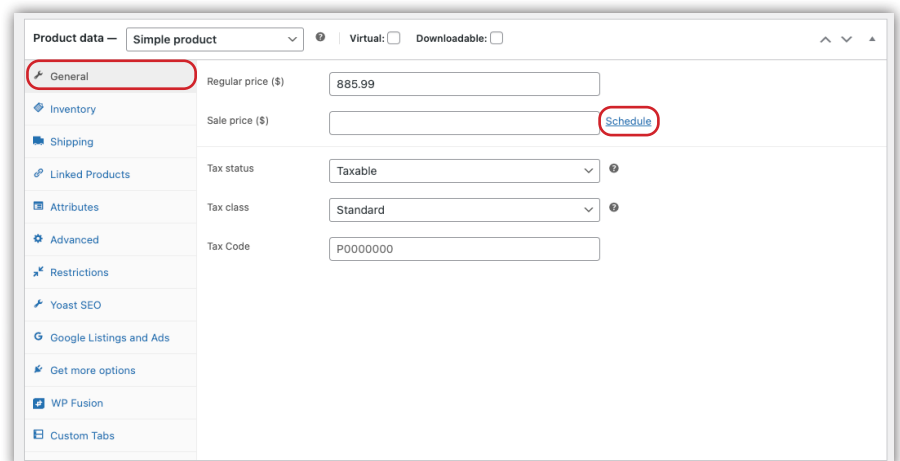

**Variable product:** products that offer several versions or size options

**Composite product:** products like kits that can be bought together, multiple products into a kit

**Product bundle:** all "Primary products can be made into a "Product bundle". Product bundle are shown on the front end as "Frequently Bought Together"

\**Primary products:* products that are the main focus, such as a pump. Then the "Bundled products" could include a coupler, nozzle, and meter.

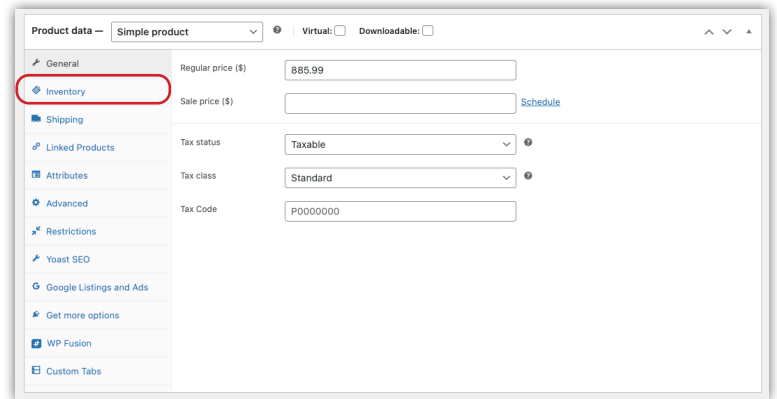

**General** (tab) — Regular price and Sale price should be set per product, Tax status, class, and Code should be the same for all products. If a Sale price is applicable, a "Schedule" should be set.

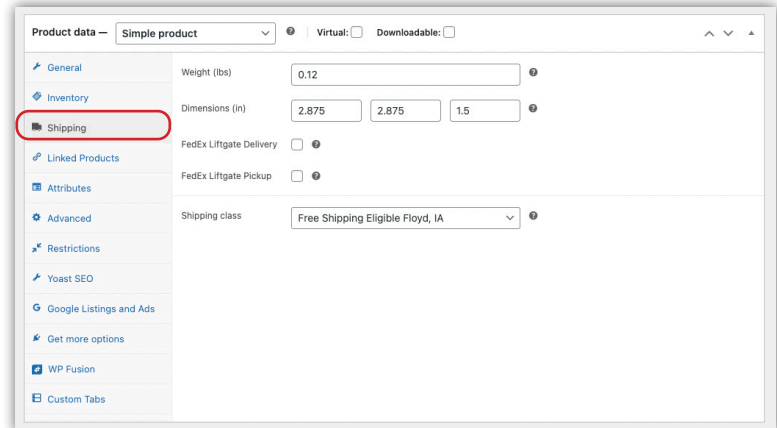

# Product Settings (Simple Products)

**Inventory (tab)** — Regular price and Sale price should be set per product, Tax status, class, and Code should be the same for all products.

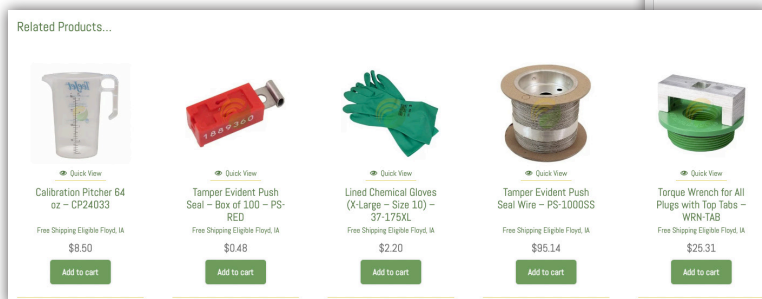

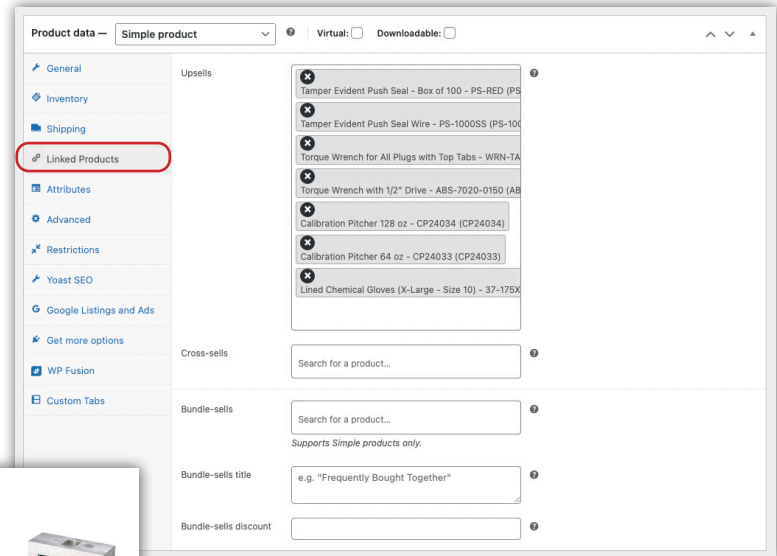

If a Sale price is applicable, a “Schedule” should be set.

**Shipping (tab)** — It is very important for shipping quote accuracy that all fields for Weight and Dimensions are accurate and complete for all products. Be sure to choose the correct shipping class for each product as well.

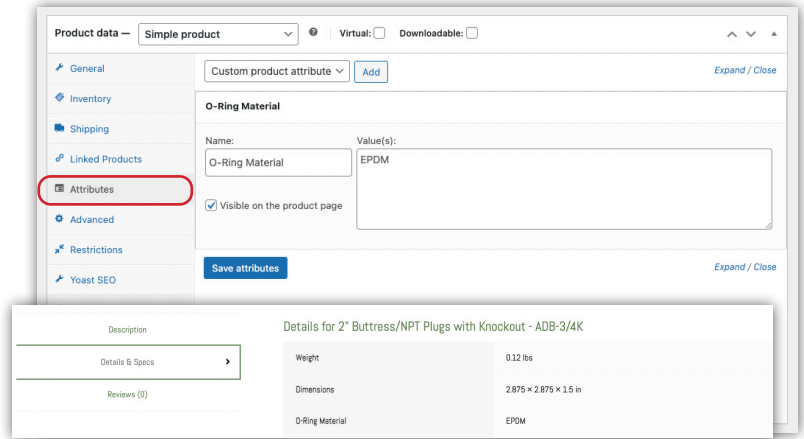

**Linked Products (tab)** — Up-sells are called “Related Products” on the front end. The name is changed via php in the functions.php file.

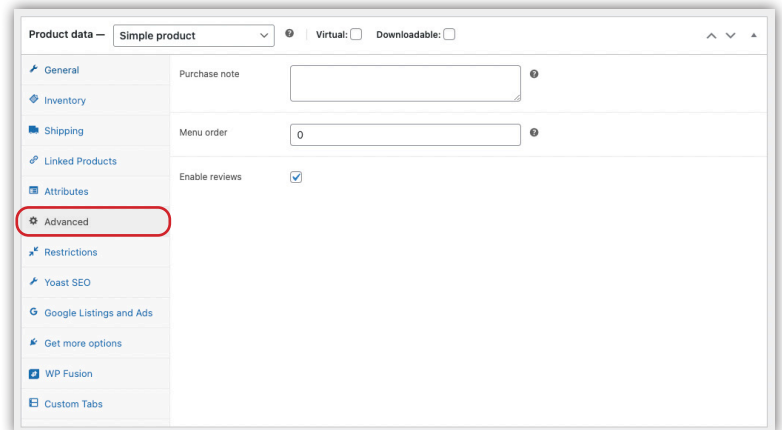

## Product Settings (Simple Products)

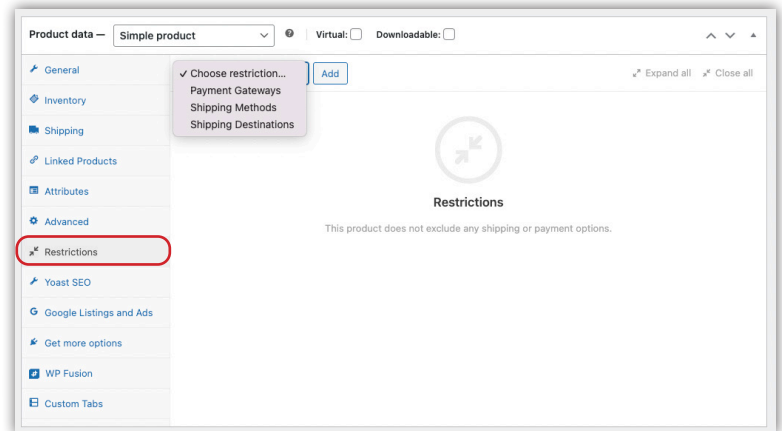

**Attributes** (tab) — You can choose any applicable attribute from the drop-down menu “Custom product attribute” and click Add. Name the attribute and supply a value. Attributes appear live under the Details & Specs tab.

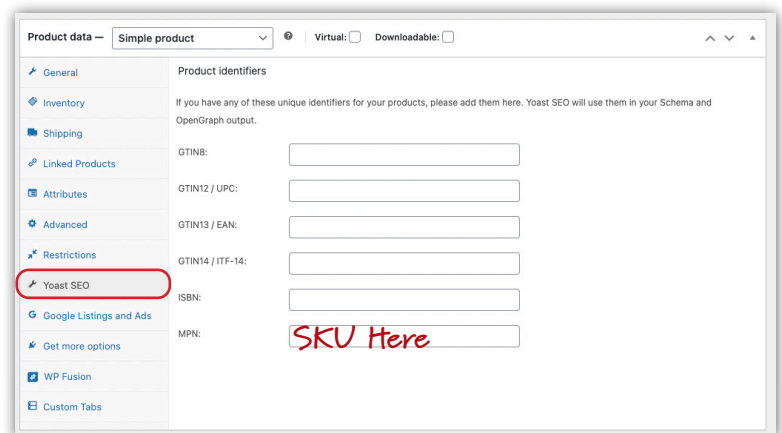

**Advanced** (tab) — You can add note that go directly to the customer after purchase, change the order in the menu and enable reviews.

**Restrictions** (tab) — You can add restrictions to Payment Gateways (restrict how they can pay), Shipping Methods (restrict or exclude shipping methods), and Shipping Destinations (limit where it can be shipped to).

**Yoast SEO** (tab) — Any unique identifiers that can be added is beneficial. If none are available, use the SKU in the MPN field.

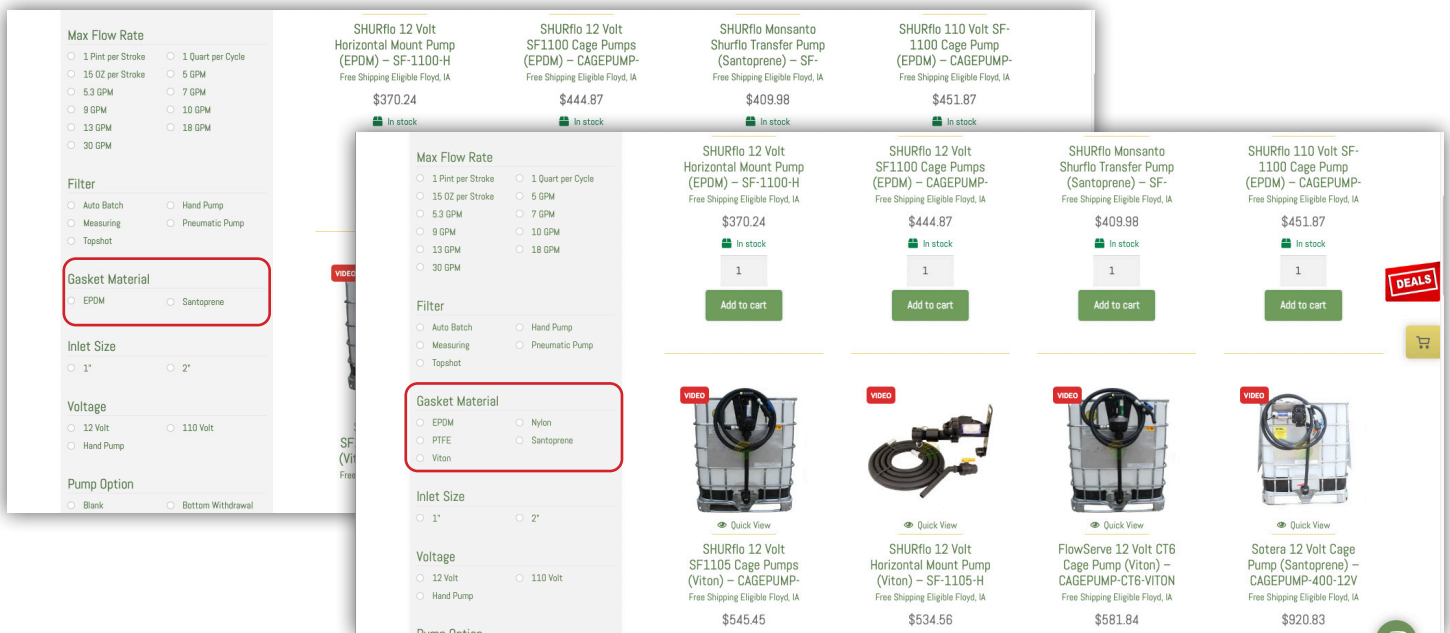

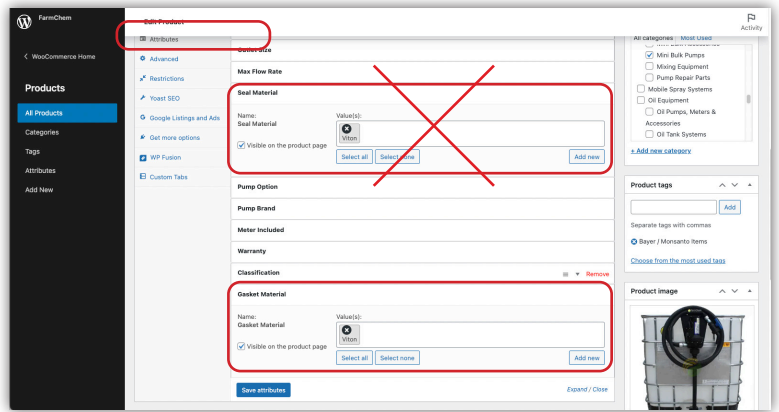

# Product Settings (Simple Products)

**IF A FILTER OPTION IS MISSING ON THE WEBSITE (FRONT-END)**

**Attributes (tab)** — If a filter option isn't showing, most likely the attribute isn't added or isn't added correctly under the product(s).

Multiple products within this category had attributes listed under "Seal Material". After changing all products under this category to "Gasket Material", all the options under the filters return to the website (front-end).

# Product Settings (Simple Products)

**Google Listings and Ads (tab)** — Please see fields in the image. These are important if products are listed on Google Shopping. MPN number is important and necessary for products to show on Google Shopping and Ads. If you do not know the MPN, use the Product SKU. Brand, Condition, Size system, and Adult content are also important fields to complete for all products. Available Date is needed if you want out of stock and backordered products to show on Google, but it must also be managed and updated as needed..

# Product Settings (Product bundle - Frequently Bought Together)

**Product bundle - Bundled Products (tab)** — For each Product bundle you can add multiple BUNDLED PRODUCTS or Frequently Bought Together Products.

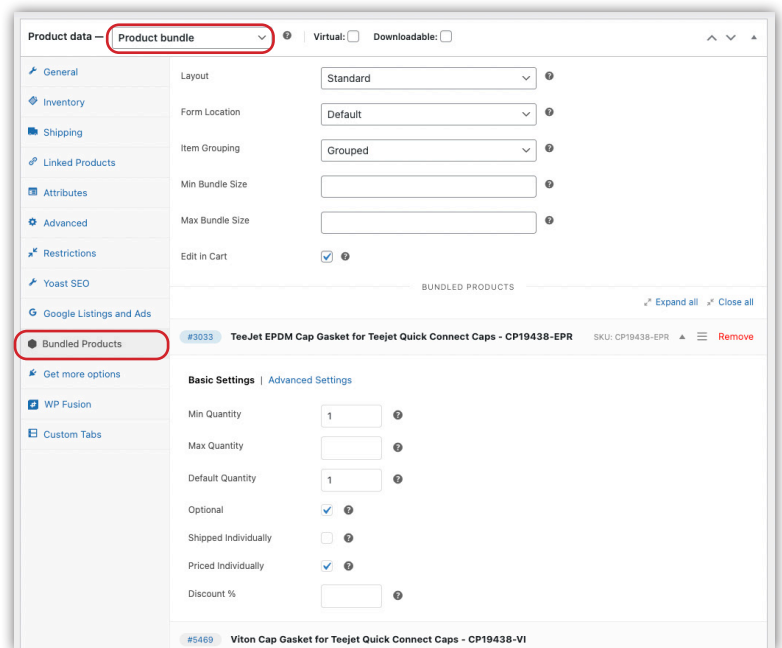

### Frequently Bought Together

-  TeeJet EPDM Cap Gasket for Teejet Quick Connect Caps - CP19438-EPR  
 Add for **\$0.33** each
-  Viton Cap Gasket for Teejet Quick Connect Caps - CP19438-VI  
 Add for **\$1.36** each
-  TeeJet Spray Tip Cleaning Brush - CP20016-NY  
 Add for **\$5.80** each
-  Calibration Pitcher 64 oz - CP24033  
 Add for **\$8.50** each
-  Calibration Pitcher 128 oz - CP24034  
 Add for **\$14.16** each
-  TeeJet Spray Tip Nozzle Screens (50 Mesh, Red) - 26642-1  
 Add for **\$0.63** each
-  TeeJet Spray Tip Nozzle Screens (100 Mesh, Green) - 26642-2  
 Add for **\$0.75** each

**\$10.72**

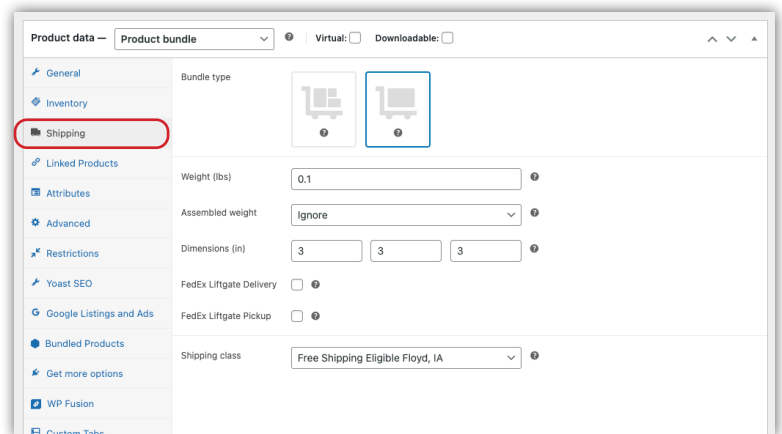

This screenshot shows the 'Product bundle' settings in the 'Bundled Products' tab. The 'Bundled Products' section is highlighted with a red box. A yellow arrow points from this section to the 'Frequently Bought Together' list in the adjacent screenshot. The list includes items like TeeJet EPDM Cap Gasket, Viton Cap Gasket, TeeJet Spray Tip Cleaning Brush, Calibration Pitcher 64 oz, Calibration Pitcher 128 oz, TeeJet Spray Tip Nozzle Screens (50 Mesh, Red), and TeeJet Spray Tip Nozzle Screens (100 Mesh, Green). An 'Add Product' button is visible at the bottom of the list.

This screenshot shows the 'Product bundle' settings in the 'Bundled Products' tab, specifically the 'Basic Settings' section. The 'Bundled Products' section is highlighted with a red box. The settings include: Min Quantity (1), Max Quantity (empty), Default Quantity (1), Optional (checked), Shipped Individually (unchecked), Priced Individually (checked), and Discount % (empty). The 'Bundled Products' list below shows the first two items: TeeJet EPDM Cap Gasket and Viton Cap Gasket.

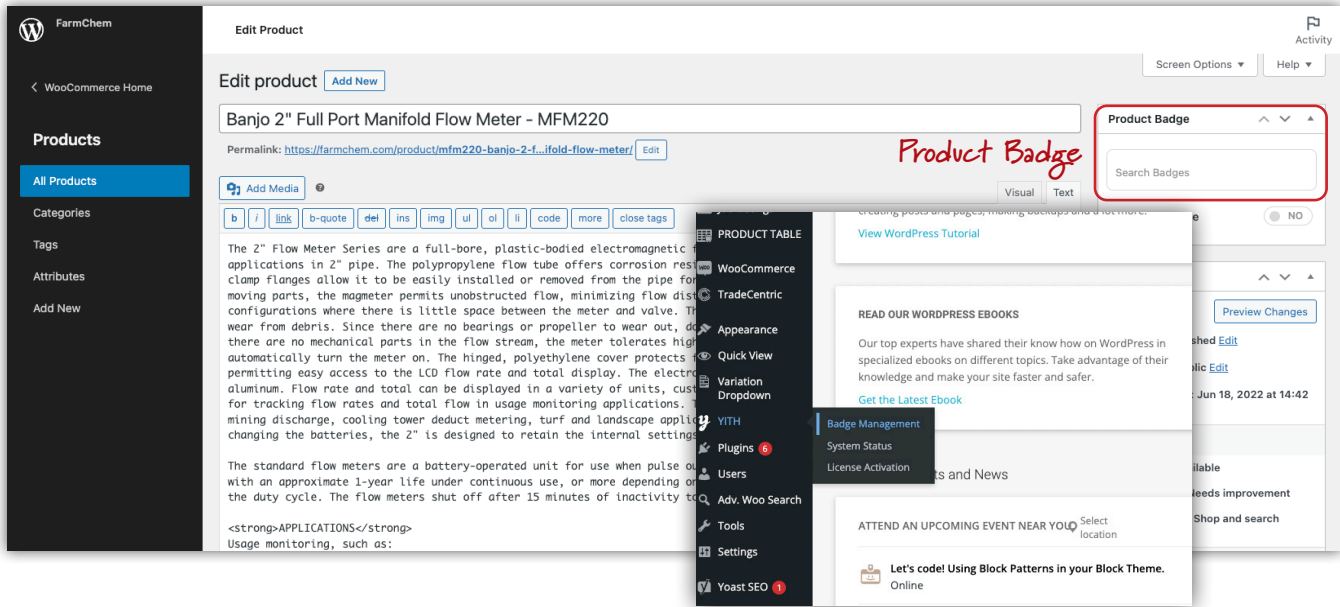

**Composite - Shipping (tab)** — Note the option for Bundle type. Each order can be treated as separate boxes or as one large package. If using one big package / box, weight and dimensions should be the total of all items together, in one large box. Be sure to choose the correct shipping class for the Composite product.

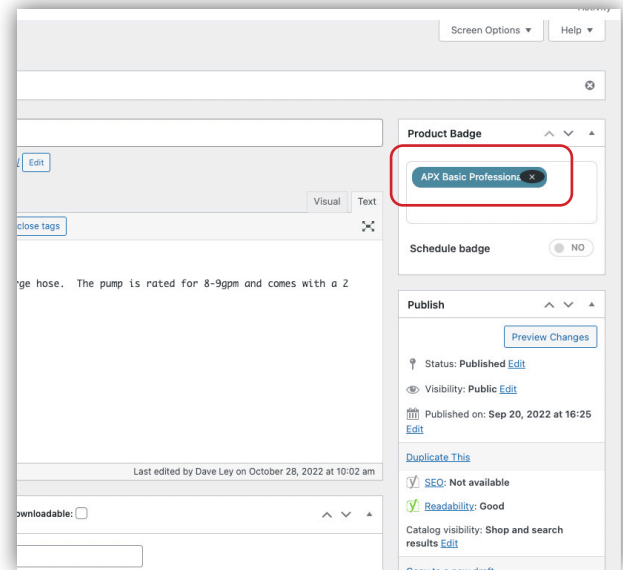

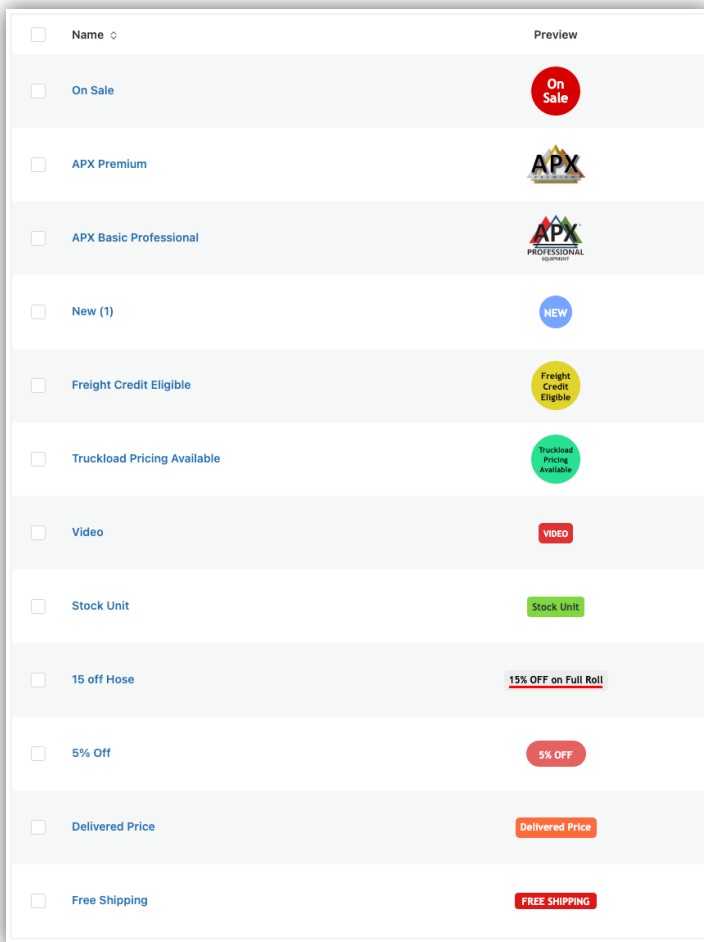

This screenshot shows the 'Product bundle' settings in the 'Shipping' tab. The 'Shipping' section is highlighted with a red box. The 'Bundle type' section shows two options: 'Separate Boxes' and 'One Large Package', with 'One Large Package' selected. Other settings include: Weight (lbs) (0.1), Assembled weight (Ignore), Dimensions (in) (3, 3, 3), FedEx Liftgate Delivery (unchecked), FedEx Liftgate Pickup (unchecked), and Shipping class (Free Shipping Eligible Floyd, IA).

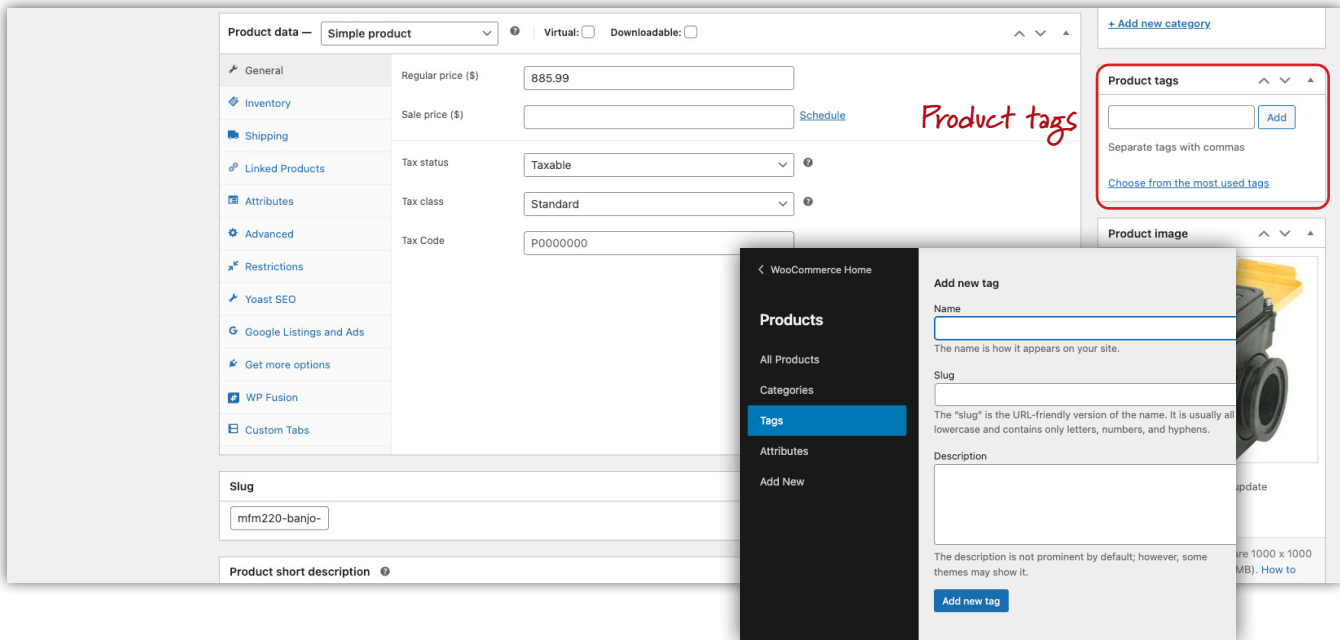

# Product Settings

**Product Badge** — Start typing the name of the desired badge — Add multiple badges if applicable — Some badges are conditionally applied (automatically) to products — See Badge Management for all badge types and settings (Yith — Badge Management)

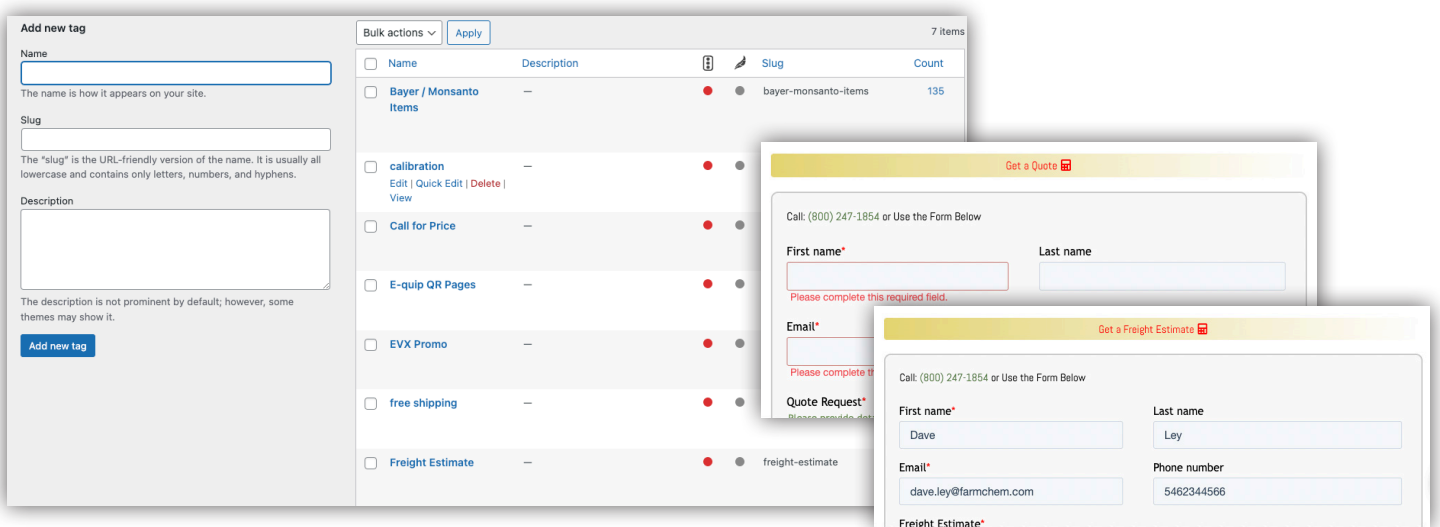

# Product Settings

**Product tags** — Start typing the name of the desired tag, select the desired one — click Add — click blue Update button to update the product — You can add multiple tags if applicable (DO NOT add “Call for Price” and “Freight Estimate” together, only use one or the other) — See Tags under Woocommerce Products for all Tags and settings

If we want the “**Get a Quote**” form added to any product, use the tag called “**Call for Price**”. If we want the “**Get a Freight Estimate**” form added to any product, use the tag called “**Freight Estimate**”. Use one or the other, **NOT BOTH**. When applied, either Tag hides the add to cart buttons and renames some buttons to “Read more”. If the product doesn’t have either of those two tags, they are just standard products that people can add to the cart and buy online.

# Call for Price / Get a Quote Products

— NO PRICE LISTED — Price Replaced with “Get a Quote” — Button Replaced with “Read More” — Get a Quote Form (hubspot) added to Product Page

See `functions.php` file — `has_term( 'call-for-price', 'product_tag' )` and search for “get a quote” for all settings

1. Delete Price — Delete Regular Price and Sale Price

2. Add Tag — “Call for price” click Add button and click the Update button.

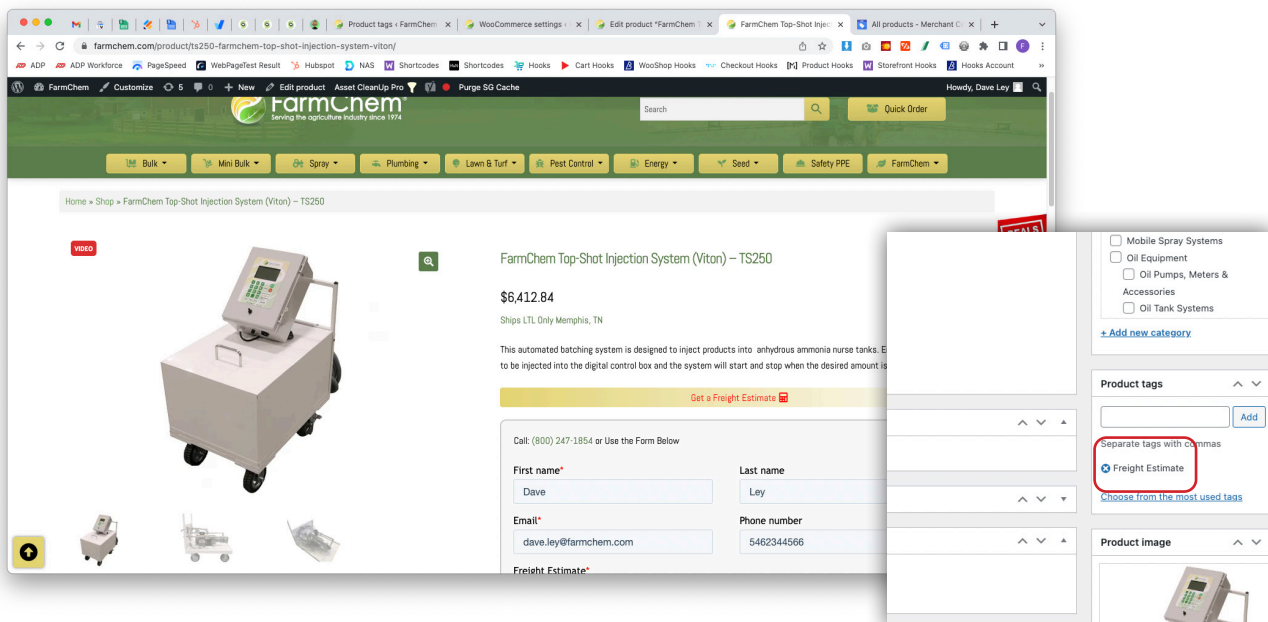

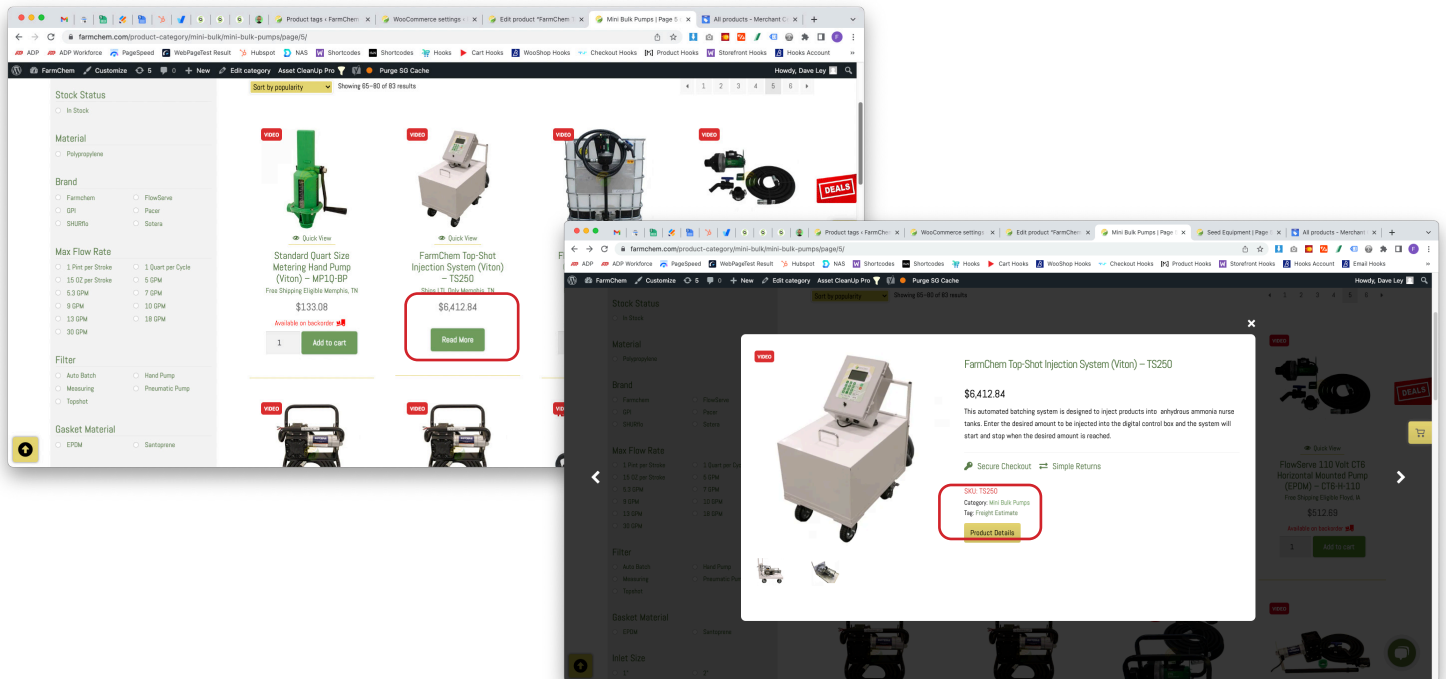

The image is a collage of screenshots from a WooCommerce website demonstrating the 'Call for Price' feature. The top-left screenshot shows a product category page with 'Get a Quote' buttons highlighted in red. The top-right screenshot shows a product detail page for 'Buckhorn Seed Box' with a 'Get a Quote' button highlighted in red. The bottom-left screenshot shows the 'Buckhorn Seed Box' product page with a 'Get a Quote' button highlighted in red. The bottom-right screenshot shows the 'Call for Price' form with a 'Call for Price' button highlighted in red. A large yellow circle with the number '1.' is overlaid on the top-right screenshot, and a large yellow circle with the number '2.' is overlaid on the bottom-right screenshot. A red arrow icon is in the bottom right corner.

# Get a Freight Estimate (LTL Approved products ONLY)

— PRICE LISTED — Button Replaced with “Read More” — Get a Freight Estimate Form (hubspot) added to Product Page

See `functions.php` file — `has_term( 'freight-estimate', 'product_tag' )`

1. Add Tag — “Freight Estimate” click Add button and click the Update button.

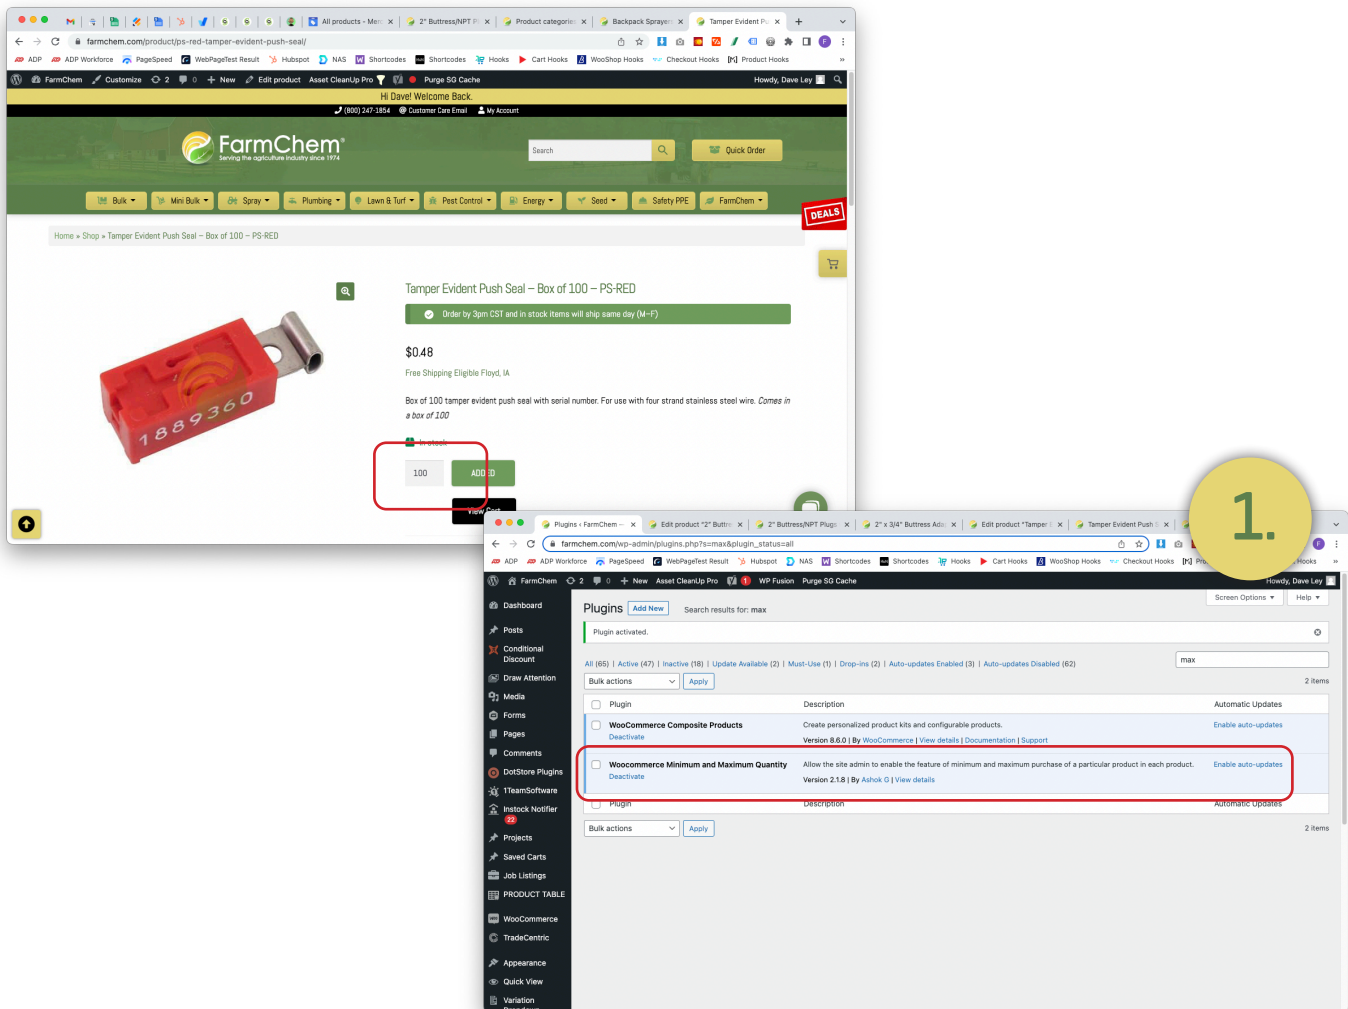

# Min / Max Quantity Setting (Per product, not global)

— PRICE LISTED — Button Replaced with “Read More” — Get a Freight Estimate Form (hubspot) added to Product Page

See *functions.php* file — **Minimum quantity and default value...**

## 1. Plugin needed — **Woocommerce Minimum and Maximum Quantity**

2. Enable “Min Max Quantity” — Edit the product in the admin and adjust settings

3. Add new tag if needed — If a tag isn’t available for the Minimum that you need, add a new tag under Products — Tags

4. Add Tag to Product — Add the desired tag to the product. Start typing and click the Add button and click the blue Update button

5. Add or Adjust Function — In the functions.php file, update the code as needed.

**2.** Min Max Quantity settings: Enable ; Min Quantity: 100; Max Quantity: 10000; Increment: 100.

**3.** Product tags screen: Tag added. Add new tag: Name: min-250.

**4.** Product tags screen: min-100 tag selected.

**5.** File Manager: functions.php code snippet:  

```
23 // Minimum quantity and default value for 100 product PS-RED  
24 add_filter('woocommerce_quantity_input_args', function($args, $product) {  
25  
26     if (has_term('min-100', 'product_tag', $product->get_id())) {  
27         $args['min_value'] = 100;  
28         $args['step'] = 100;  
29         $args['input_value'] = 100;  
30     }  
31  
32     return $args;  
33 }  
34  
35  
36  
37 }, 10, 2);
```

# Option Buttons for Composite Products (Kits)

The add to cart button does not work on the shop loop or product Pages because the customer needs to choose options. A custom 'Options' button was added via php code and the add to cart button is hidden via css.

See *functions.php* file — **/\*\* Add options button to pump kit products on shop Pages \*/**

See *styles.css* file — **/\* hide add to cart button for composite pump kit products \*/**

1. Create Tag — **Make sure there is a Product tag called "pump-kits"**

2. Assign Product Tag — **Under Product tag, start to type "pump-kits". Select it and click Add button. Click blue Update button to save each applicable product.**

The image is a collage of screenshots illustrating the steps to create and assign a product tag. It includes a WordPress admin interface for 'Product tags', a code editor for 'functions.php', and a code editor for 'style.css'. A yellow circle with the number '1.' is placed over the 'Product tags' interface, and a yellow circle with the number '2.' is placed over the 'Add' button in the 'Product tags' interface. The 'functions.php' code shows the removal of an action and the addition of a custom 'pump\_kit\_options\_button' function. The 'style.css' code shows the hiding of the 'add\_to\_cart\_button' for products with the 'pump-kits' tag.

```
functions.php

## Functions (functions.php file)

### MOVE COUPON CODE FIELD - CART PAGE

See *functions.php* file

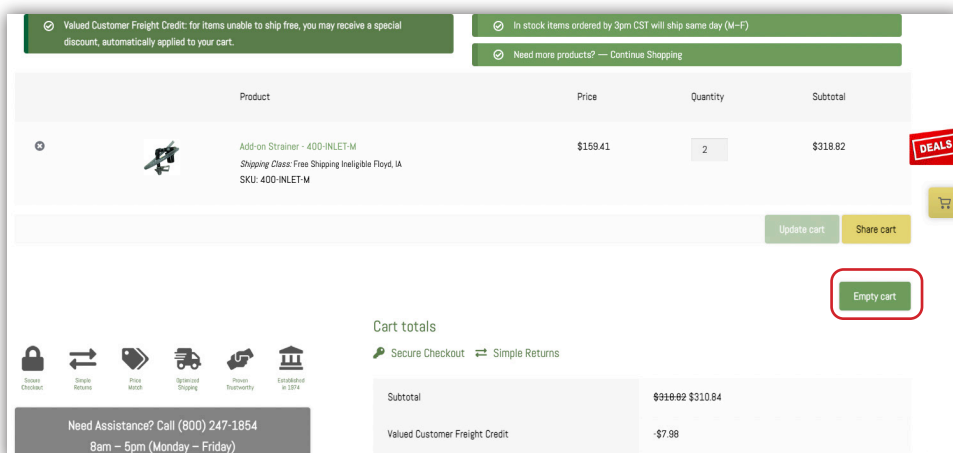

```
// move coupon code field
add_action( 'woocommerce_proceed_to_checkout', 'display_coupon_form_below_proceed_checkout', 9 );
function display_coupon_form_below_proceed_checkout() {
    ?>
    <form class="woocommerce-coupon-form" action="<?php echo esc_url( wc_get_cart_url() ); ?>" method="post">
    <div class="coupon under-proceed">
        <input type="text" name="coupon_code"
        <?php if ( wc_coupons_enabled() ) { ?>
```

### EMPTY CART BUTTON - CART PAGE

See *functions.php* file

```
// "Empty cart" button on Woocommerce cart page admins only
add_action( 'woocommerce_after_cart_table', 'woocommerce_empty_cart_button' );
function woocommerce_empty_cart_button() {
    if( is_super_admin( $user_id ) )
        echo '<a href="' . esc_url( add_query_arg( 'empty_cart', 'yes' ) ) . '"
class="button cart empty-cart" title="' . esc_attr( 'Empty cart', 'woocommerce' ) . '">
    . esc_html( 'Empty cart', 'woocommerce' ) . '</a>';
}
```

## Functions (functions.php file)

### ORDER BY 3PM MESSAGE - CART PAGE

See *functions.php* (all freight fees are...)

```
// order by 3pm ship today banner Action ----- //add_action( 'woocommerce_before_
cart_table', 'order_by_time_banner', 1 );
```

```
function order_by_time_banner() {
    echo '<div class="woocommerce-message" style="background-color:#709e60
!important;">In stock items ordered by 3pm CST will ship same day (M-F)</div>';
}
```

The screenshot shows a WooCommerce cart page. At the top, there are two green message banners. The second banner, highlighted with a red box, reads: "In stock items ordered by 3pm CST will ship same day (M-F)". Below the banners is a table with columns: Product, Price, Quantity, and Subtotal. The table contains one item: "Add-on Strainer - 400-INLET-M" with a price of \$158.41, a quantity of 2, and a subtotal of \$318.82. Below the table are buttons for "Update cart", "Share cart", and "Empty cart". At the bottom, there is a "Cart totals" section showing a subtotal of \$318.82 and a "Valued Customer Freight Credit" of \$7.98. A "DEALS" badge is visible on the right side of the cart.

### AMOUNT TO GO FOR FREE SHIPPING - CART PAGE

See *functions.php* (all freight fees are...)

```
/*amount to go for free shipping*/
add_action( 'woocommerce_before_calculate_totals', 'shipping_class_message_free_
shipping_left', 20, 1 );
function shipping_class_message_free_shipping_left( $cart ){
    if ( is_admin() && ! defined('DOING_AJAX') )
        return;

    ## Your settings below ##    $shipping_classes = array( '3-free-freight-eligible-
```

The screenshot shows a FarmChem cart page. At the top, there is a green message banner highlighted with a red box that reads: "\$58.73 until FREE Shipping (Some restrictions apply)". Below this is another green banner: "In stock items ordered by 3pm CST will ship same day (M-F)". Below the banners is a table with columns: Product, Price, Quantity, and Subtotal. The table contains one item: "Dry Break - DM201D" with a price of \$177.20, a quantity of 1, and a subtotal of \$177.20. Below the table are buttons for "Update cart" and "Share cart". A "DEALS" badge is visible on the right side of the cart.

## Functions (functions.php file)

### SHOW SHIPPING CLASS BELOW PRODUCT NAME IN TABLE - CART PAGE See *functions.php* (all freight fees are...)

```
/** * Add the shipping class to the bottom of each item in the cart */
add_filter( 'woocommerce_cart_item_name', 'shipping_class_in_item_name', 20, 3);
function shipping_class_in_item_name( $item_name, $cart_item, $cart_item_key ) {

    // If the page is NOT the Shopping Cart or the Checkout, then return the product
    title (otherwise continue...)    if( ! ( is_cart() || is_checkout() ) ) {
        return $item_name;
    }
}
```

The screenshot shows a WooCommerce cart page. At the top, there are several green banners: 'Valued Customer Freight Credit: for items unable to ship free, you may receive a special discount, automatically applied to your cart.', 'In stock items ordered by 3pm CST will ship same day (M-F)', and 'Need more products? — Continue Shopping'. Below these is a table with columns: Product, Price, Quantity, and Subtotal. The first row shows 'Add-on Strainer - 400-INLET-M' with a price of \$158.41 and a quantity of 2, resulting in a subtotal of \$318.82. A red box highlights the text 'Shipping Class: Free Shipping Ineligible Floyd, IA' and 'SKU: 400-INLET-M' below the product name. To the right of the table are buttons for 'Update cart', 'Share cart', and 'Empty cart'. At the bottom, there is a 'Cart totals' section showing a subtotal of \$318.82 and a 'Valued Customer Freight Credit' of -\$7.98. A 'DEALS' badge is visible on the right side.

### CHANGE ADDRESS FIELD TEXT - CART PAGE See *functions.php* file

```
// alter change address text
add_filter( 'gettext', function( $translated_text ) {
    if ( 'Change address' === $translated_text ) {
        $translated_text = 'Enter address to see shipping options';
    }
    return $translated_text;
} );
```

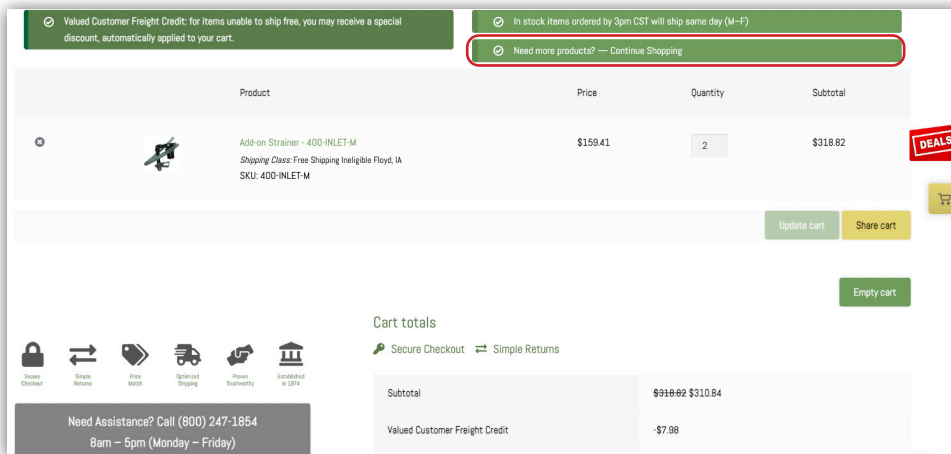

The screenshot shows a WooCommerce checkout page. On the left, there is a 'Need Assistance? Call (800) 247-1854' banner and a 'Shipping Terms' section. The main content area is divided into two columns. The left column shows 'Free Shipping Eligible Floyd, IA, unbackorder' and a 'Tax' section with a total of \$218.53. The right column shows shipping options: 'UPS Ground \$24.46', 'UPS 3 Day Select: \$31.77', 'UPS 2nd Day Air: \$31.96', 'UPS Next Day Air: \$38.60', and 'Customer Pick-up'. A red box highlights the text 'Enter address to see shipping options' below the shipping options. At the bottom, there is a 'Coupon code' field with an 'Apply coupon' button and a large green 'Proceed to checkout' button. A 'DEALS' badge is visible on the right side.

## Functions (functions.php file)

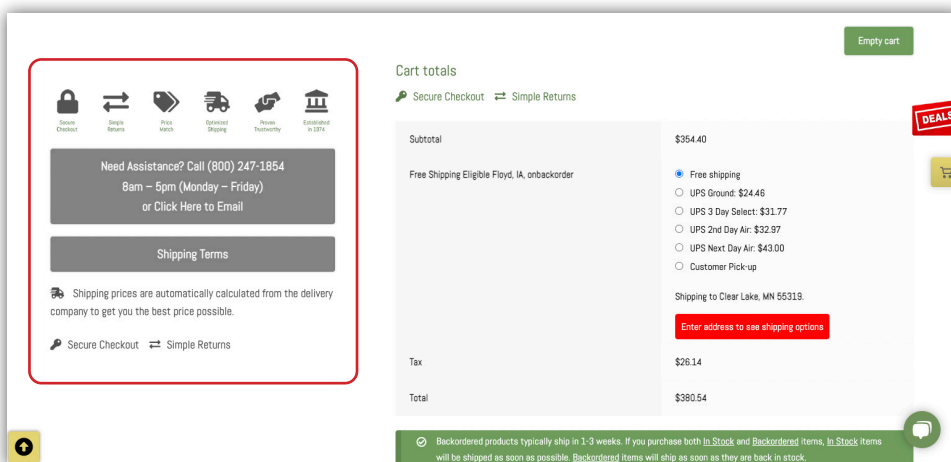

### ADD CONTINUE SHOPPING BUTTON - CART PAGE See *functions.php* (all freight fees are...)

```
/** Add Continue Shopping Button on Cart Page*/
add_action( 'woocommerce_before_cart_table', 'woo_add_continue_shopping_button_to_cart',
2 );
function woo_add_continue_shopping_button_to_cart() {
    $shop_page_url = get_permalink( woocommerce_get_page_id( 'shop' ) );
    echo '<div class="woocommerce-message messagebackcolor" style="background-color:#709e60
!important;">';
    echo ' <span class="message">Need more products? <a href="'. $shop_page_url. "'
```

### ADD CONTENT - CART COLLATERALS TEXT - NEED ASSISTANCE... - CART PAGE See *functions.php* file

```
/** Cart Collaterals left to cart totals*/
add_action( 'woocommerce_cart_collaterals', 'cart_collaterals', 10 );
function cart_collaterals (){
    echo '<div class="cart-totals-left"><p class="trust-icons"></p><a href="/contact-us/" target="_blank" class="wc-
proceed-to-checkout txt-black"><p class="button messagebackcolor wc-proceed-to-checkout
```

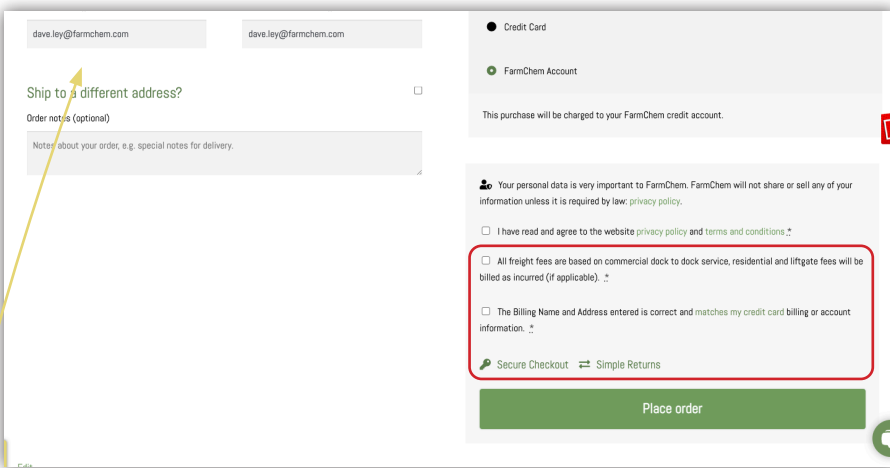

## Functions (functions.php file)

### RESIDENTIAL FEE AGREE CHECKBOX - CHECKOUT PAGE See *functions.php* (all freight fees are...)

```
/** New checkbox for residential additional fees */
add_action( 'woocommerce_review_order_before_submit', 'additional_fees_checkout_checkbox', 1 );
function additional_fees_checkout_checkbox() {
    woocommerce_form_field( 'checkout_checkbox', array( // CSS ID      'type'
=> 'checkbox',
        'class'          => array('form-row mycheckbox'), // CSS Class      'label_class'
=> array('woocommerce-form__label woocommerce-form__label-for-checkbox checkbox'),
        'input_class'   => array('woocommerce-form__input woocommerce-form__input-checkbox input-checkbox'),
```

### BILLING NAME AND ADDRESS CHECKBOX - CHECKOUT PAGE See *functions.php* file

```
/** New checkbox for cc address checkout page */
add_action( 'woocommerce_review_order_before_submit', 'add_cc_address_checkout_checkbox', 1 );
function add_cc_address_checkout_checkbox() {
    woocommerce_form_field( 'checkout_checkbox', array( // CSS ID      'type'
=> 'checkbox',
        'class'          => array('form-row mycheckbox'), // CSS Class      'label_class'
=> array('woocommerce-form__label woocommerce-form__label-for-checkbox checkbox'),
```

A screenshot of a checkout page. The page includes a 'Ship to a different address?' checkbox, an 'Order notes (optional)' field, and a 'Notes about your order' field. On the right, there are radio buttons for 'Credit Card' and 'FarmChem Account'. Below these, there is a section for terms and conditions with several checkboxes. One checkbox is highlighted with a red box: 'All freight fees are based on commercial dock to dock service, residential and liftgate fees will be billed as incurred (if applicable)'. Other checkboxes include 'I have read and agree to the website privacy policy and terms and conditions.', 'The Billing Name and Address entered is correct and matches my credit card billing or account information.', and 'Secure Checkout' (checked) and 'Simple Returns' (unchecked). A green 'Place order' button is at the bottom.

### SAVE CHECKOUT PAGE FIELD VALUES IF SOMEONE LEAVES - CHECKOUT PAGE See *functions.php* file

```
// save checkout field values when people leave page -----
----- //add_action( 'woocommerce_checkout_update_order_review', 'bbloomer_save_checkout_values', 9999 );

function bbloomer_save_checkout_values( $posted_data ) {
    parse_str( $posted_data, $output );
    WC()->session->set( 'checkout_data', $output );
```

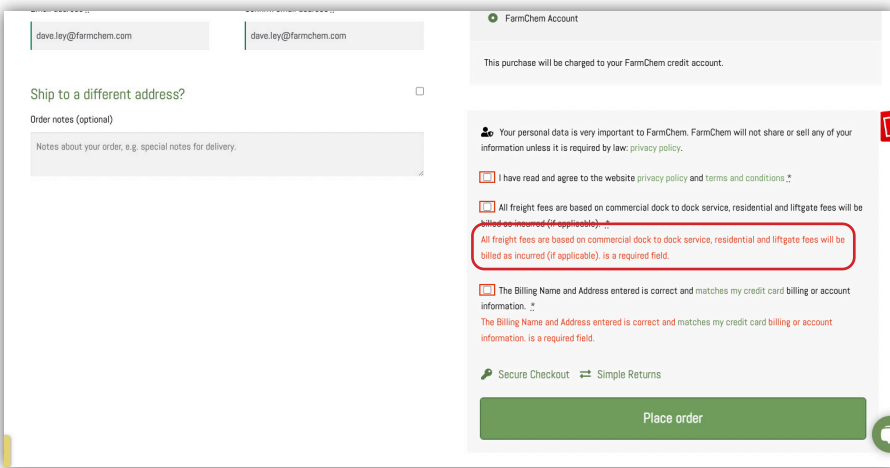

## Functions (functions.php file)

### MISSING FIELD ERROR MESSAGE - CHECKOUT PAGE See *functions.php* (all freight fees are...)

```
// show missing fields error checkout ----- //add_
filter( 'woocommerce_form_field', 'checkout_field_label_errors', 10, 4 );

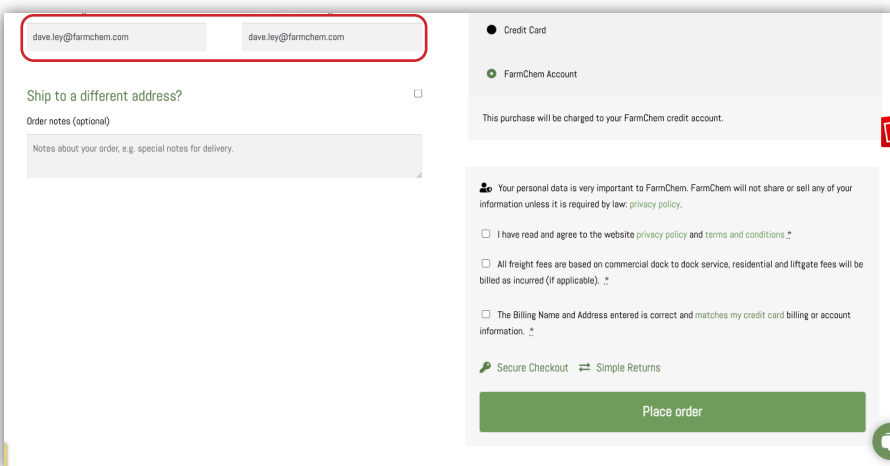

function checkout_field_label_errors( $field, $key, $args, $value ) {
    if ( strpos( $field, '</label>' ) !== false && $args['required'] ) {
        $error = '<span class="error" style="display:none">';
        $error .= sprintf( __( '%s is a required field.', 'woocommerce' ), $args['label']
    );
};
```

The screenshot shows a checkout page for FarmChem. The 'FarmChem Account' section is active. A red box highlights an error message: "All freight fees are based on commercial dock to dock service, residential and liftgate fees will be billed as incurred (if applicable). is a required field." The error message is displayed in red text. Below the error message, there are several checkboxes for terms and conditions, and a "Place order" button.

### VERIFY EMAIL ADDRESS - CHECKOUT PAGE See *functions.php*

```
/*Verify email address field on checkout page*/
add_filter( 'woocommerce_checkout_fields', 'checkout_email_verification_field' );
function checkout_email_verification_field ( $fields ) {
    $fields['billing']['billing_email']['class'] = array( 'form-row-first' );
    $fields['billing']['billing_em_ver'] = array(
        'label' => 'Confirm email address',
    );
};
```

The screenshot shows the same checkout page as above, but with the email address field highlighted by a red box. The email address is "dave.ley@farmchem.com". The "FarmChem Account" section is active. The "Place order" button is visible at the bottom.

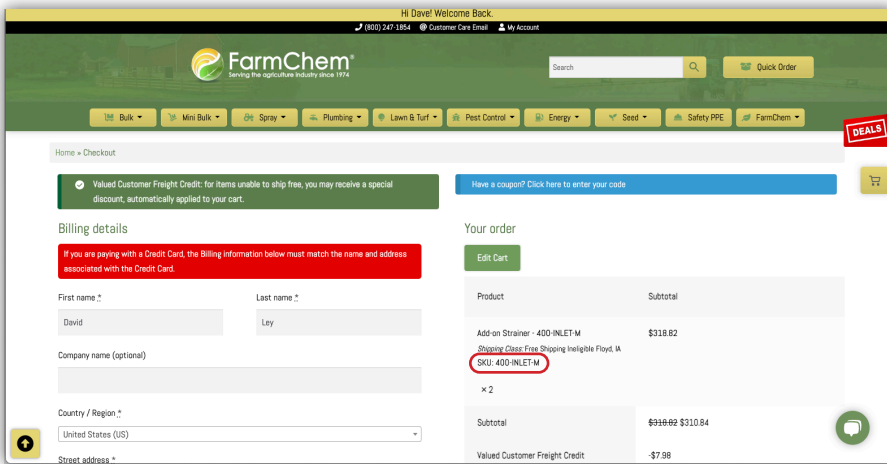

## Functions (functions.php file)

### ADD SKU UNDER PRODUCT TITLE IN TABLE - CHECKOUT / CART PAGE See *functions.php* (all freight fees are...)

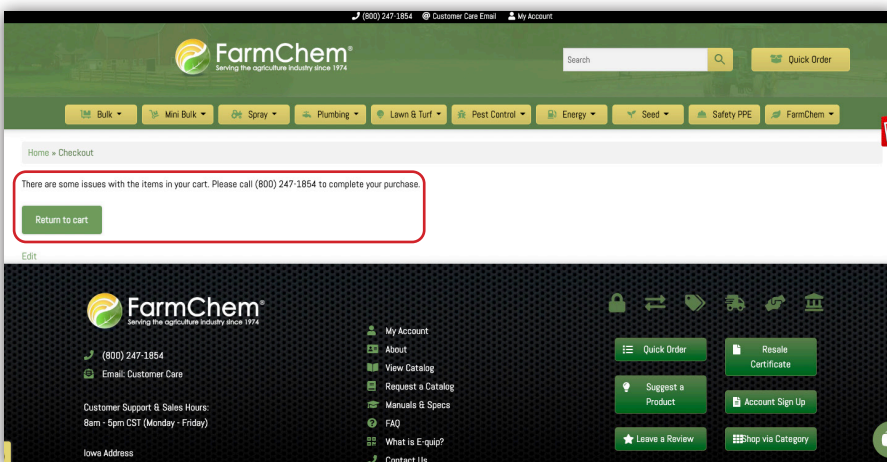

```
// This adds the SKU under cart/checkout item name
add_filter( 'woocommerce_cart_item_name', 'add_sku_cart_checkout', 9999, 3 );

function add_sku_cart_checkout( $item_name, $cart_item, $cart_item_key ) {
    $product = $cart_item['data'];
    $item_name .= get_sku_add( $product );
    return $item_name;
}
```

### THERE ARE SOME ISSUES WITH YOUR CART... TEXT CHANGE - CHECKOUT PAGE See *functions.php*

```
/** * Change There are some issues with the items in your cart. */
add_filter( 'gettext_woocommerce', 'modify_cart_error_message', 10, 3 );
function modify_cart_error_message($translation, $text, $domain) {
    if ( 'There are some issues with the items in your cart. Please go back to the cart
page and resolve these issues before checking out.' === $translation ) {
        $translation = 'There are some issues with the items in your cart. Please call
```

## Functions (functions.php file)

### PHONE NUMBER BILLING FIELD CHARACTER ADJUSTMENT - CHECKOUT / CART PAGE See *functions.php* (all freight fees are...)

```
// Adjustments to the Billing phone number field on checkout page to 12 characters
add_filter( 'woocommerce_checkout_fields', 'bbloomer_checkout_phone_us_format' );
function bbloomer_checkout_phone_us_format( $fields ) {
    $fields['billing']['billing_phone']['placeholder'] = '123-456-7890';
    $fields['billing']['billing_phone']['maxlength'] = 12; // 123-456-7890 is 12 chars
    return $fields;
}

### ORDER WEIGHT TOTAL ON ORDER PAGE - WP ADMIN

See *functions.php*

```
// Show order total weight on orders page
add_action( 'woocommerce_checkout_update_order_meta', 'bbloomer_save_weight_order' );
function bbloomer_save_weight_order( $order_id ) {
    $weight = WC()->cart->get_cart_contents_weight();
    update_post_meta( $order_id, '_cart_weight', $weight );
}
```

The screenshot shows the 'Edit Order' page for order #302028. The order is in 'Processing' status. The shipping method is 'Free shipping'. The 'Order Weight: 15.23lbs' is highlighted with a red circle. The shipping method is 'Free shipping'.

## Functions (functions.php file)

### DISPLAY THANK YOU PAGE UNDER ORDERS - WP ADMIN (not visible when order is still on hold) See *functions.php*

```
///// view thank you page under order drop down wp admin  
add_filter( 'woocommerce_order_actions', 'bbloomer_show_thank_you_page_order_admin_actions', 9999, 2 );  
function bbloomer_show_thank_you_page_order_admin_actions( $actions, $order ) {  
    if ( $order->has_status( wc_get_is_paid_statuses() ) ) {  
        $actions['view_thankyou'] = 'Display thank you page';  
    }  
    return $actions;  
}
```

The screenshot shows the 'Edit Order' interface in the WordPress admin. The order is #302048, created on 2022-10-26, and is currently in 'Processing' status. The 'Order actions' dropdown menu is open, and the 'Display thank you page' option is highlighted with a red circle. The page also displays order details, billing information for Justin Gibson, shipping methods, and a table of items with their costs and taxes.

### EMPTY CART PAGE CONTENT - CART PAGE See *functions.php*

```
// add custom content and recent products to empty cart page  
add_action( 'woocommerce_cart_is_empty', 'empty_cart_custom_content', 99 );  
function empty_cart_custom_content() {  
    echo '<br><br><h4>You haven't added any products to the cart yet.</h4>' . '<section  
id="block-15" class="widget widget_block top-padding-shop-buttons">' . '<div  
class="wp-container-16 wp-block-columns">' . '<div class="wp-  
container-14 wp-block-column" style="flex-basis:100%">' . '<div  
</div  
</div  
</div  
</div';  
}
```

The screenshot shows the 'Your cart is currently empty' page. At the top, there is a blue banner with the text 'Your cart is currently empty.' Below this, a message states 'You haven't added any products to the cart yet.' The page features a navigation bar with 'Suggest a Product', 'Shop Table View', and 'Quick / Bulk Order' buttons. A search bar and a 'DEALS' badge are also visible. The main content area displays a grid of five product recommendations, each with a 'Quick View' link, a product image, a title, a price, and an 'Add to cart' button. The products are: Large Desiccant Bags (1LB, 10MFS2030U16) for \$3.86; Dry Break - DM201D for \$177.20; 3" x 24" Stainless Steel Nipple (304) - 304SSN324 for \$187.23; SHURflo 12 Volt SF1105 Cage Pumps (Viton) - CAGEPUMP- for \$850.08; and FlowServe 12 Volt CT6 Cage Pump (Viton) - CAGEPUMP-CT6-VITON- for \$585.26.

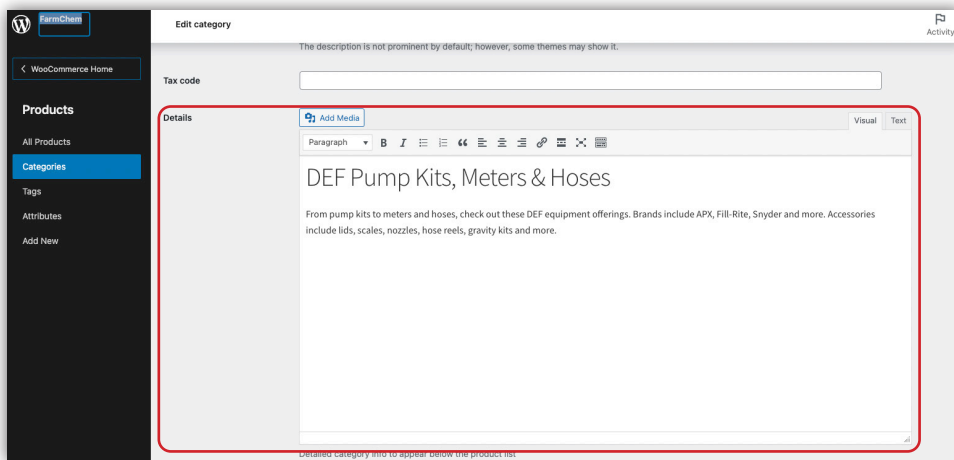

## Functions (functions.php file)

### ADD NEW "DETAILS" FIELD FOR SEO - CATEGORY PAGES

See *functions.php* file

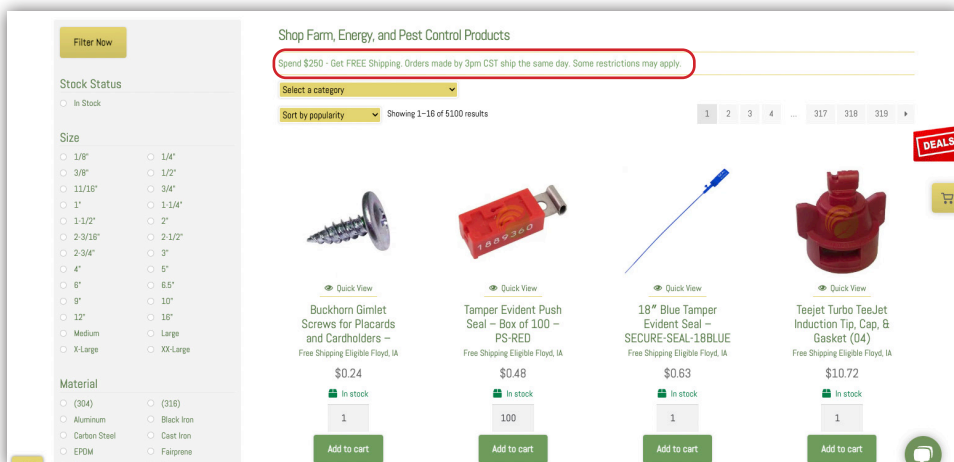

```
///// Detailed category info to appear below the product list on edit category page for
SEO on bottom of category Pages
add_action( 'init', 'wpm_product_cat_register_meta' );
/** * Register details product_cat meta. * * Register the details metabox for
WooCommerce product categories. * */function wpm_product_cat_register_meta() {
    register_meta( 'term', 'details', 'wpm_sanitize_details' );
}
/** * Sanitize the details custom meta field. * * @param string $details The existing
details field. * @return string The sanitized details field */function wpm_
```

### AMOUNT REMAINING UNTIL FREE SHIPPING - SHOP PAGES

See *functions.php* file

```
// spend $250 get free shipping banner
add_action( 'woocommerce_archive_description', 'spend_250_to_shop' );
function spend_250_to_shop() {
    echo '<div id="shipping-banner"><a href="/shipping-returns/" target="_blank"><span
class="txt-green">Spend $250 - Get FREE Shipping. Orders made by 3pm CST ship the same
day. Some restrictions may apply.</span></a></div>';
}
```

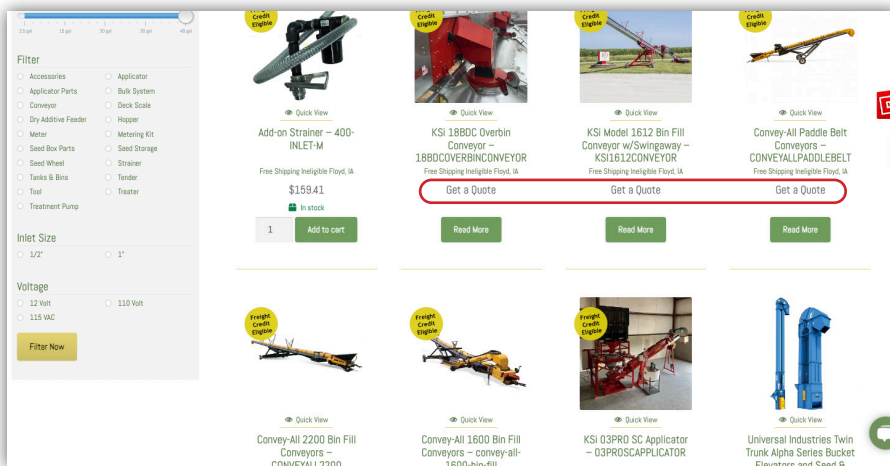

## Functions (functions.php file)

### REPLACE THE PRICE WITH "GET A QUOTE" FOR CALL FOR PRICE PRODUCTS - SHOP PAGES See *functions.php*

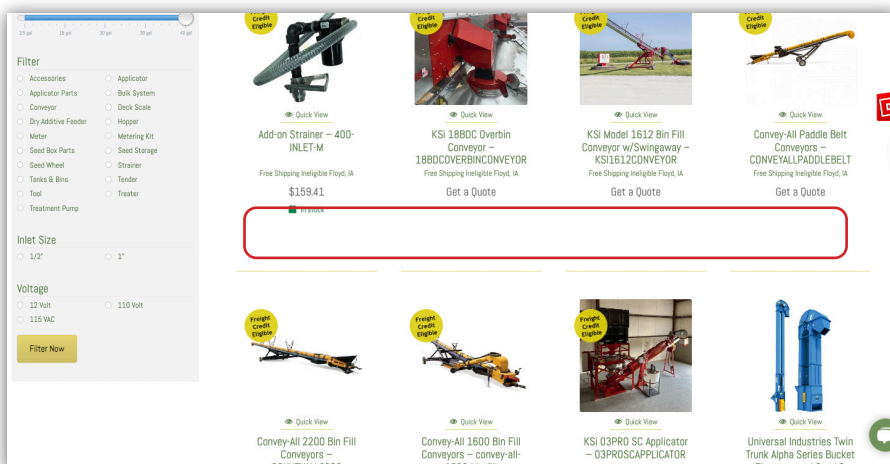

// WooCommerce code that replaces the price of certain products with "Call For Price" now "Get a Quote"

```
function wpglorify_price_free_zero_empty( $price, $product ) {  
    if ( $product->get_price() == 0 ) {  
        if ( $product->is_on_sale() && $product->get_regular_price() ) {  
            $regular_price = wc_get_price_to_display( $product, array( 'qty' => 1,  
'price' => $product->get_regular_price() ) );  
        }  
    }  
}
```

### HIDE "ADD TO CART" BUTTON FOR CALL FOR PRICE, GET A QUOTE, AND FREIGHT ESTIMATE - SHOP PAGES See *functions.php*

```
// WooCommerce code that hides the Add To Cart button for Call for Price Get a Quote and Freight Estimate  
add_filter( 'remove_add_to_cart', 'my_woocommerce_is_purchasable', 10, 2 );  
function remove_add_to_cart( $is_purchasable, $product ) {  
    if ( has_term( 'call-for-price', 'product_tag' ) || has_term( 'freight-estimate', 'product_tag' ) )  
        $is_purchasable = false;  
}
```

# Functions (functions.php file)

## VARIABLE PRODUCT DROP-DOWN - SHOP PAGES

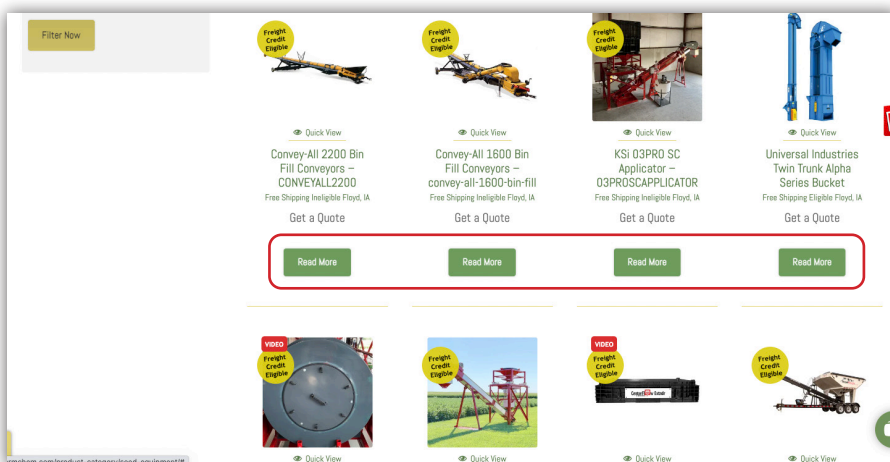

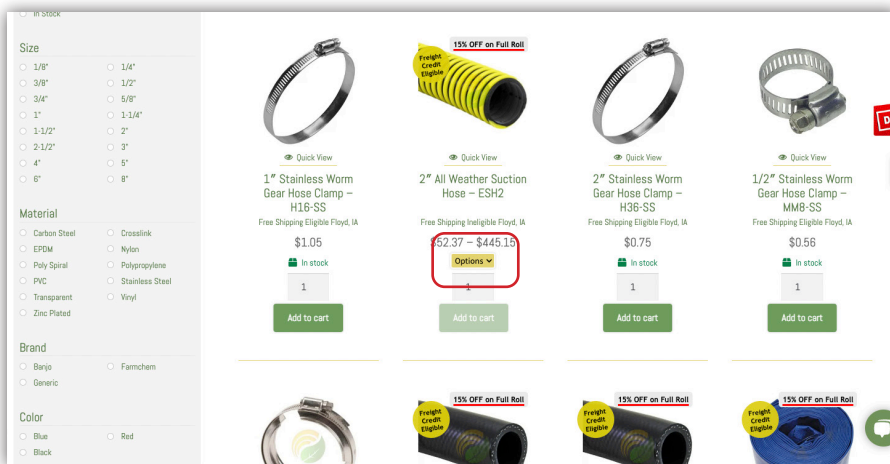

See *functions.php*

```
// Start Variable product drop-down on shop page and adjusting buttons to work / fit and hide elements -----/** Add Variable product drop-down on shop page DOES CAUSE REDIRECT TO SINGLE PRODUCT PAGE and add to cart and select box disappears */
```

```
add_action( 'woocommerce_before_shop_loop', 'select_variations_shop_page_fc' );  
function select_variations_shop_page_fc() {  
    remove_action( 'woocommerce_after_shop_loop_item', 'woocommerce_template_loop_add_to_cart', 10 );  
    add_action( 'woocommerce_after_shop_loop_item', 'woocommerce_template_single_add_to_cart', 30 );  
}
```

```
/** Add read more button to call for price get a quote and freight estimate products on shop Pages */
```

```
add_action( 'woocommerce_after_shop_loop_item', 'cssigniter_second_cart_button', 99 );

### CHANGE "CHOOSE AN OPTION" TEXT FOR VARIABLE PRODUCTS - SHOP PAGES (for seo) See *functions.php*

```
/** * change choose an option text for variable product drop-down */add_filter(  
'woocommerce_dropdown_variation_attribute_options_args', 'variable_dropdown_text_  
custom', 15 );
```

### CHANGE SHOP PAGE TITLE - SHOP PAGES (Shop Farm, Energy, and Pest Control Products) See *functions.php*

```
// shop page title ----- //add_filter( 'woocommerce_page_title', 'woo_shop_page_  
title');  
function woo_shop_page_title( $page_title ) {
```

### REMOVE AJAX CART FRAGMENTS See *functions.php*

```
// remove the ajax cart fragments ?wc-ajax=get_refreshed_fragmentsadd_action( 'wp_  
enqueue_scripts', 'bbloomer_disable_woocommerce_cart_fragments', 11 );  
function bbloomer_disable_woocommerce_cart_fragments() {
```

### REMOVE "THIS PRODUCT IS CURRENTLY OUT OF STOCK" See *functions.php*

```
// remove This product is currently out of stock and unavailable.  
function puri_out_of_stock_message( $text ){  
$text = 'Out of stock';
```

### AJAX ADD TO CART See *functions.php*

```
add_action( 'wp_footer', 'custom_trigger_ajax_add_to_cart' );  
function custom_trigger_ajax_add_to_cart() {  
?> <script type="text/javascript"> (function($){
```

## Functions (functions.php file)

### ALLOW SHORTCODES IN WIDGETS

See *functions.php*

```
//Allow shortcodes in widgetsadd_filter ('widget_text', 'do_shortcode');
```

### AUTO YEAR IN FOOTER COPYRIGHT - TEMPLATE - ALL PAGES

See *functions.php*

```
//footer auto year shortcode  
function year_shortcode () {  
$year = date_i18n ('Y');
```

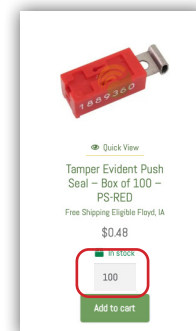

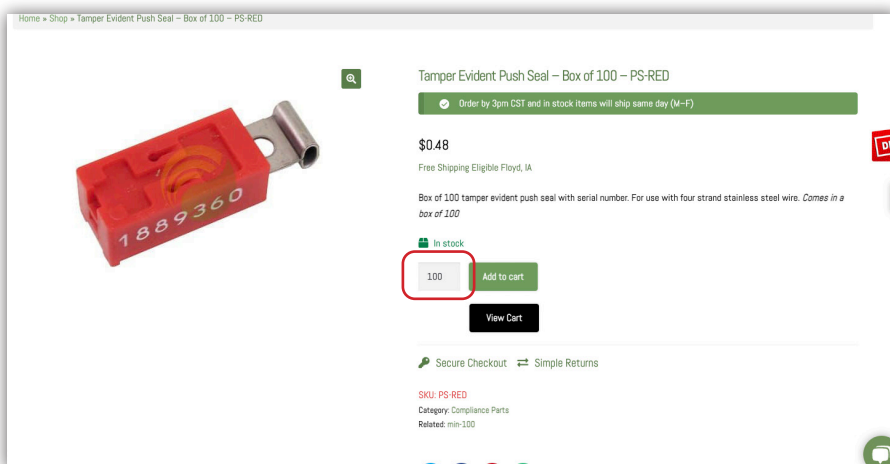

### MINIMUM QUANTITY AND DEFAULT VALUE - SPECIFIC PRODUCTS (PS-RED & ADB-3/4K)

See *functions.php*

```
// Minimum quantity and default value for 250 product ADB-3/4Kadd_filter ("woocommerce_  
quantity_input_args", function($args, $product){
```

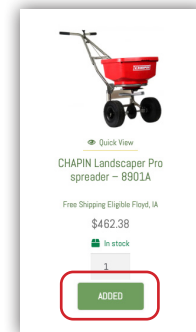

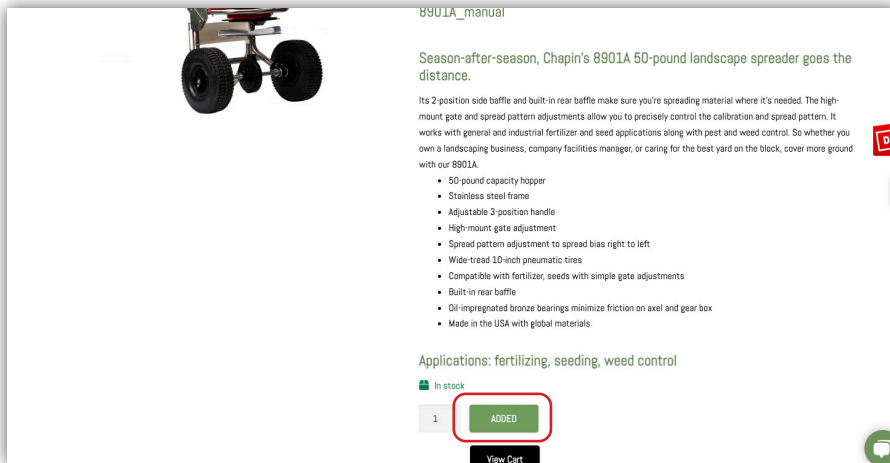

```
if(has_term("min-250", "product_tag", $product->get_id())) {  
$args['min_value'] = 250;  
$args['step'] = 250;  
$args['input_value'] = 250;
```

## Functions (functions.php file)

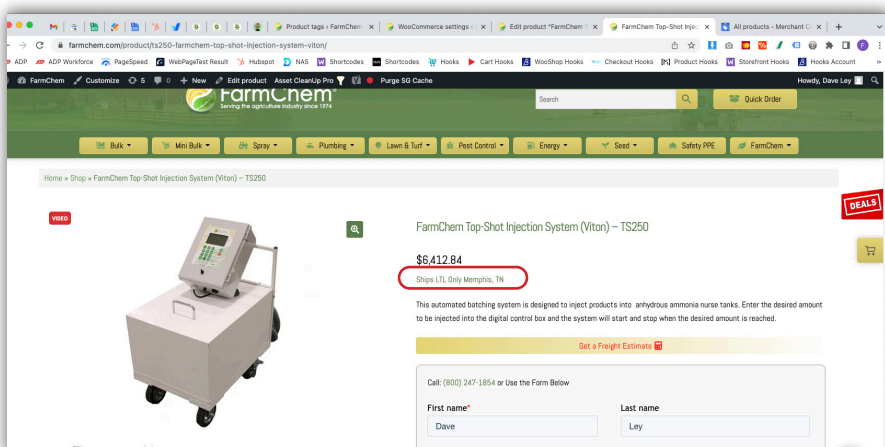

### CHANGE "ADD TO CART" BUTTON TO "ADDED" - SHOP PAGES & SINGLE PRODUCT PAGES (After adding to cart)

```
// Change button for single products
add_filter( 'woocommerce_product_single_add_to_cart_text', 'already_in_cart_single_product' );
function already_in_cart_single_product( $label ) {
    foreach( WC()->cart->get_cart() as $cart_item_key => $values ) {
        $product = $values['data'];
        if( get_the_ID() == $product->get_id() ) {
```

### DISPLAY SHIPPING CLASSES - SHOP PAGES & SINGLE PRODUCT PAGES See *functions.php*

```
/** * Display Shipping Classes on single product Pages */add_action( 'woocommerce_single_product_summary', 'display_product_shipping_class_product_Pages', 15 );
function display_product_shipping_class_product_Pages () {
    global $product;
    $shipping_class = $product->get_shipping_class();
    if( ! empty($shipping_class) ) {
        $term = get_term_by( 'slug', $shipping_class, 'product_shipping_class' );
```

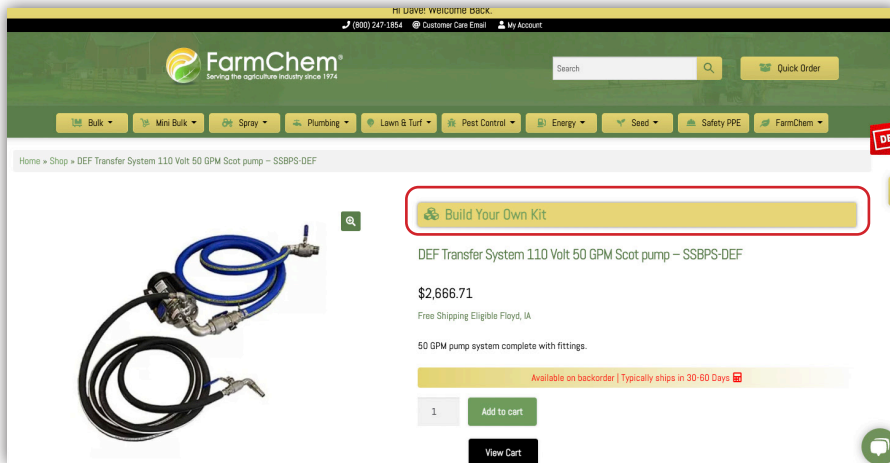

## Functions (functions.php file)

### BUILD YOUR OWN DEF PUMP KIT BUTTON - SINGLE PRODUCT PAGES

Don't overwrite disabled out of stock variations from theme configuration:  Some themes disable variation out of stock by default and some by an option, when activate our plugin it overwrite theme configuration (disabled variation become selectable), so by enable this option our plugin settings will not overwrite theme configuration

Enable this option to not overwrite disabled out of stock variation settings from themes (some themes)

Ignore WooCommerce Out of Stock Visibility Settings for Variations:  WooCommerce has an option to Hide out of stock products from catalog (WooCommerce->Products->Inventory->Out of stock visibility) when you enable/disable this option will hide out of stock products from shop page/category page, but this also hide out of stock variations from variation dropdown, for that we provide option to ignore that woocommerce out of stock visibility settings only for variable products

Enable this option to ignore WooCommerce Out of Stock Visibility Settings for Variations

# Share Cart (continued)

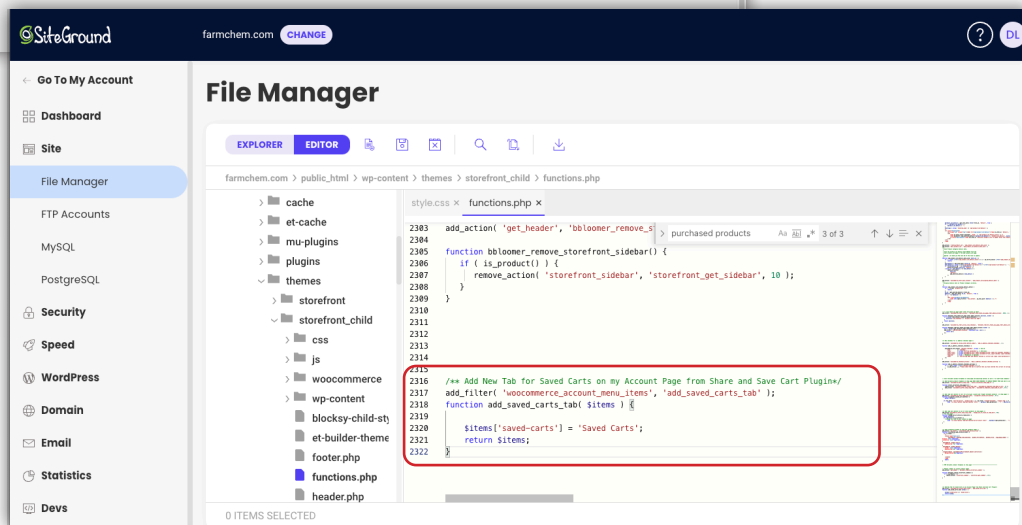

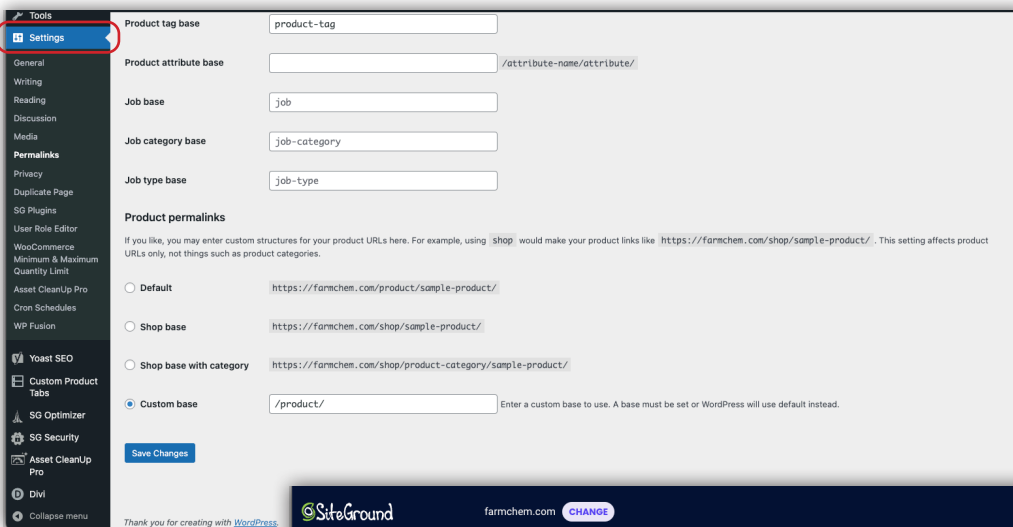

## Share cart button on Cart Page and Saved Carts under My Account

If the plugin quits working, try to save the Permalinks: [WP Admin](#) — [Settings](#) — [Permalinks](#) — [Save Changes](#)

See `functions.php` (Plugin was not working, this code adds the tab to the MY Account Page so people can view their saved carts)

```
/** Add New Tab for Saved Carts on my Account Page from Share and Save Cart Plugin*/add_filter( 'woocommerce_account_menu_items', 'add_saved_carts_tab' );  
function add_saved_carts_tab( $items ) {  
  
    $items['saved-carts'] = 'Saved Carts';  
    return $items;  
}
```

# Product Table

Shop via product table list view

WP Admin — Product Table

The image is a collage of screenshots demonstrating the Product Table plugin's functionality. It includes:

- WordPress Admin Dashboard:** Shows the 'Product Table' menu item highlighted in red in the left sidebar.
- Edit Product Table Configuration:** Shows various settings for the product table, including 'Variation Table Position', 'Advance Search PROBLEM FIX', and 'Basic Settings' (Add to Cart Icon, Floating Cart Icon, etc.).
- DEVICESWISE COLUMN SETTING:** Shows settings for Desktop, Tablet, and Mobile views.
- Storefront View:** Shows the 'Shop Table View' page with a search box and a table of products. The table has columns for 'Thumbnails', 'Products', 'Variations', 'Quantity', and 'Price'. Two products are listed: 'Banjo 3" Poly 90° Street Elbow (Sch 80) - SL300-90' and 'Snyder CageBuster Plastic 330 Gallon IBC Tote - Truckload Pricing Available - 330-GB'.
- Grid View vs Table View:** A graphic comparing the traditional grid view with the compressed table view.
- Feedback Banner:** A banner asking 'Tell us what you think!' with a video player.
